Corporate Academia Relationships Cell

The **Corporate Academia Relationships Cell, SSCE** was established June 2023 .The Journey of Cooperation between Institution and Industry has taken accelerated pace and shapes from decades. It has proved the necessity of increased skill enhancement practices with the participation of industries in engineering education in all the branches. Historically, it has started with the industry Institute Interactions and evolved as Industry Institute partnership Cell. However, until the time that the public private partnership has evolved , industry , by far and large not been able to work on larger education projects. With the advent of corporate stepping into the bigger picture of Edutech sector, the academia partnership has taken a new Dimension.

Our objective is to educate, partner with Corporates, Start UP's, Provide the exposure of the emerging technologies in various sectors. We aim on building capacities among the student fraternity with the increased awareness on the employability skills alongwith the entrepreneurial opportunities. We strongly believe in building a strong relationship and bring the initiatives to students . We are committed to connect the students and educators to the world of tomorrow from our Campus through this partnership. The Corporate Academia Relationships Cell is established to build Capacities, Nurture students with the employability skills and bridge the expectations.

We, at Sri Sairam College of Engineering would work for the holistic development of students through accelerated interactions, Real time projects, Internships, Research Opportunities, MVP building , Student exchange programs , Collaborations through MOU's, Establishing the Centre

of Excellence, Industry Sponsored Labs to educate Next generation technologies in the areas of branches of Engineering

We Intend to Connect the students to a larger Industry network through various programs and strongly echo our Intention of establishment' **EDUCATE, COLLABORATE and SUSTAIN**"
