About Sri Sairam College of Engineering

Sri Sairam College of engineering formerly Shirdi Sai Engineering College, Bengaluru, established in the year 1997 by MJF.Ln. Leomuthu, Founder Chairman of Sapthagiri Educational Trust, is a non-profitable and non-minority institution. Located within the Bengaluru city limits, Sairam College is an inspirational place to study in which everything from classroom to laboratories, hostel to cafeteria is modernized with state-of-the art infrastructure. The labs and other facilities are among the best in the region making it one of the most sought-after institutions by parents and student.

The Ultra-modern computer labs with latest software and hardware, and techno-visionary innovative centre make the institution learning heaven for enthusiastic young engineering aspirants. ICT enabled class rooms and work areas are well furnished and equipped with modern up-to-date facilities.

**Dr. B Shadakshrapa,
Principal, SSCE**

Institution Vision

To emerge as a “center for excellence” offering technical education and research opportunities of very high standards to students, develop the total personality of the individual and still high levels of discipline and strive to set global standards, making our students technologically superior and ethically

About Department

The Department of Computer Science and Engineering in Sri Sairam College of Engineering formerly Shirdi Sai Engineering College was established in the year 1997 1998 (with intake of 40 students).

Dr. G.MANJULA,
Head of Dept. CSE

The department offers B.E. degree programmes in Computer Science and Engineering which are affiliated to Visvesvaraya Technological University. The Department has an excellent track record of organizing various workshops and conferences in areas of emerging technologies and faculties are encouraging students to do innovative projects. The faculty members are highly motivated and devoted to deliver the highest quality professional education to students and combined with strong teaching learning process including ICT enabled classrooms. The placement record of the department had always been impressive.

Department vision

Transform students into professional, ethical engineers to meet global challenges through quality education.

Program Educational Objectives (PEOs)

PEO 1	Graduates develop knowledge in the core areas of Computer Science Engineering and enhance technical and research skills for providing software solutions
PEO 2	Graduates will pursue technical and managerial skills to analyze and develop problem solving abilities of Computer Science and Engineering through Mathematics, Science and Engineering to encounter industrial needs.
PEO 3	Graduates develop effective communication and management skills to interact effectively with stakeholders in the field of Computer Science Engineering and develop innovative solutions for real time problems.
PEO 4	Graduates with Lifelong learning demonstrate skills and knowledge in the domain of computer programming and exhibit leadership qualities, team work, social and ethical values.

Program Specific Outcomes (PSOs):

PSO-1	The ability to understand, analyze and develop computer programs in the areas related to algorithms, system software, networking and embedded computing, web design, and data analytics for efficient design of computer-based systems.
PSO-2	The ability to understand the evolutionary changes in computing technologies, apply standard practices and strategies in software project development and testing using various programming environments to deliver a quality product for business, real world problems and meet the challenges of the future.

PROGRAM OUTCOMES (POs)

PO1	Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO2	Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
PO5	Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
PO6	The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
PO7	Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
PO9	Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO10	Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO11	Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO12	Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Department Mission

- To impart quality education in Computer Science and Engineering with the strong industry institute partnership to develop technical & research Skills.
- Enrich the technical ability of students to face the world with confidence, commitment and team- work in the IT field.
- Provide a learning platform for interdisciplinary innovation, research and Self-learning.
- Encourage faculty and students to actively participate in holistic educational practices and to impart social values.

Department Activities

1. Sharanya.S,1st year CSE student got selected in TalentSprint - Women Engineers Program supported by GOOGLE.She is one among the 120 students out of 22000+ students who got selected for GOOGLE WE program throughout India.

2. Our Final Year Students (Ajith, VasudevaRaju, Brindha, Pramod, Bhavyashree k) of CSE department with a Team name : "Hactivists" received the FIRST PLACE in "GreenTech Hackathon2020" which is conducted by St.Josephs College of Engineering at Mangaluru and cash prize Rs25,000.

3. Siddharaj Junnakar have addressed about LinkedIn- Profile building on 13.06.2020.

The poster features a man in a suit on the left. The main text is on a blue background with a yellow speech bubble at the top. The speech bubble contains the text 'SENIOR TALKS' in large, colorful letters, with 'Small talks... Big lessons!' below it. The main title is '“LinkedIn- Profile Building”'. Below the title, it says '11: 00 am Saturday,IST 13.06.2020' and 'LIVE from Melbourne'. The speaker's name is 'Siddharaj Junnakar', with 'Data Scientist, Monash University' and 'Sairam Alumnus - B.E (CSE) 2015' below it. The hashtag '#SeniorTalks' is also present. A list of achievements follows: 'Pursued his Masters in Data Science form Monash University, Melbourne, Australia.', 'Data Scientist at Monash University, delivered comprehensive data solutions to problems, demonstrates PoCs & Productionling processes.', 'Business Intelligence Developer at Monash University created SSIS packages to build analytics, at data & power BI Visualisation.', and 'Junior Software Developer at Monash University, developed APIs to perform back-end operations.' At the bottom, there is a yellow bar with the registration link: 'www.sairamce.edu.in/seniortalks'. Below this, there are logos for Sairam College of Engineering and its affiliations, including the University of Engineering and Technology and the Ministry of Education, Government of Karnataka. The website 'www.sairamce.edu.in' is also listed.

4. Sri Sairam College of Engineering, Bengaluru, under the department of CSE has organized power launching webinar on 24th June 2020.
5. Sri Sairam College of Engineering, Bengaluru, under the department of CSE has organized smarthacks 2020 on 17th feb 2020.

Online Courses:

1. Dr.B.Shadaksharappa has completed a certification on Leadership and EmotionalIntelligence in Course era in the year 2020.
2. Dr.B.Shadaksharappa has completed a certification on AI for Everyone in Course erain the year 2020.
3. Dr.B.Shadaksharappa has completed a certification on Data science Math skills inCourse era in the year 2020.
4. Dr.B.Shadaksharappa has completed a certification on The Aurdino Platform and CProgramming in Course era in the year 2020.
5. Dr.B.Shadaksharappa has completed a certification on Introduction to Virtual Reality inCourse era in the year 2020.
6. Dr.B.Shadaksharappa has completed a certification on Leadership and EmotionalIntelligence in Course era in the year 2020.

JULY 2020-DEC 2020.

1. Department of Computer Science and Engineering Sri Sairam College of Engineering organized an Online workshop in Deep Learning, Neuro Linguistic Programming, Artificial Intelligence, Natural Language Toolkit On 28/12/2020 and 29/12/2020.

Why Natural Language Toolkit (NLTK)?

- Platform for implementing Natural Language Processing through Python programs
- Huge database of corpora and lexical resources with an easy interface
- Built-in libraries of several text processing algorithms
- Open Source
