

## Department of Computer Science and Engineering

### Seminar Report

#### Program Details:

Name of the Program	Seminar
Date & Time	19/06/2023
Targeted Audience	II Semester
Staff In charge	Mrs.C.Valarmathi
No. Participants	100
Topic Discussed	How AI and IT changes the world

#### Summary:

The program was planned and organised by the CSE department Faculty, Mrs. C.Valaramthi, under the guidance of the HoD Dr.Smitha J.A. The program started exactly at scheduled time. The staff incharge has narrated about profound impact of Artificial Intelligence and Information Technology on the world, examining how these technologies are shaping economies, societies, and individual lives. From innovative applications to emerging trends, the seminar seeks to elucidate the transformative power of AI and IT on a global scale. The incharge has explained about the following topics

- Recent breakthroughs in Information Technology.
- Advancements in making machines understand and generate human-like language.
- Personalized medicine and AI-driven diagnostics.
- Robotics and AI-assisted surgeries

The students actively participated in the discussion and expressed their views about AI. Further, students have interacted with the coordinator regarding AI Techniques.
