**SHIRDI SAI ENGINEERING COLLEGE**  
Sai Len Nagar, Samandhur (PO), Anekal, Bengaluru - 562 106

## Chairman's Message...

Indeed, I highly appreciate the efforts of the principal and his team in bringing out the 10th issue of the news letter minchu. Campus activities help our students mould further in their life. It builds team work among all. I congratulate each and every one concerned to keep continuing the good work.

Chairman  
**MJF. Lion Leo Muthu**

## Principal Message...

Dear Staff and Students

Warmest wishes and congratulations to all of you and thank you for all your hard and sincere work in supporting SSEC in bringing out 10th issue of Minchu and thinking on GO GREEN.

Some of the Going Green benefits to realize include:

Reducing ongoing energy costs and costs for other non-renewable resources.

Enhancing the sustainability and Reduce Costs.

Sending an important message to student friends, staff, parents and the community that you care about conserving energy, natural resources, and saving the environment.

With escalating energy and natural resource costs and concerns about the environment, Going Green is now a key responsibility of all of us and organizations.

Going Green is more than a slogan. It is a way to save money and be a responsible citizen.

The concept of "going green" is something most people are familiar with, and while we know how important it is to make our lives more green both for the environment and our family's health Do you have simple ways that you recycle, reuse or have simply become less wasteful as a family?

We abuse land because we regard it as a commodity belongs to us. When see land as a community, to which we belong, we begin to use it with love and respect.

Till now man has been up against Nature; from now on he will be up against his own nature. Let us permit nature to take her own way; she better understand her own affairs than we.

If civilization has risen from the Stone Age, it can rise again from the Wastepaper Age.

Wish you all a very best in your endeavors.

**Dr. T.V. Govindaraju.**  
Principal

# INTERVIEW WITH THE GREAT PERSONALITY

A Great Visionary, Philanthropist, Social worker....

More than 20 Institutions under one umbrella...

Our Students Mr. Naveen & Mr. Vikash of final year ECE visited Chennai on 18th February 2012 to interview our beloved

CHAIRMAN **MJF. Lion Leo Muthu** Excerpts....

Mr. Naveen & Mr. Vikash of final year ECE  
with our honorable CHAIRMAN

**1. Are you a devotee of Sai Baba? What made you to keep the name as Sai Ram for institutions which you set up?**

Yes, I am a strong follower of Shridi Sai Baba. Since 1970, I am deeply attached to him and his principles.

Like every true Christian goes to church every Sunday, every Muslim goes to mosque on Fridays, for the past 40 years I have the practice of going to Sai Mandir every Thursday.

As Sai Baba is common to all and has no religion or caste, I became his devotee and that's why I named the institution as "Sairam"

**2. What was your inspiration to set up a big institution like Sai Ram?**

In those days, only upto +2 level of education was available at our place. Due to sudden demise of my father, I was not able to afford for further education. Further, I had missed my higher education and struggled a lot.

So, I feel very bad whenever I happen to come across people struggling for education. This inspired me to set up institutions and serve people by providing good quality education at affordable cost.

**3. Do you have any idea of taking your institutions to global level?**

No No No, I love my nation, I serve only to my nation and for people of India. I would like to be a true Indian and develop India.

**4. There is a saying "Behind every successful man there is a woman". Is that true in your case?**

Yes. There is definitely my wife Kalaiselvi's support behind all my success. She looks after our family and also helps me out in each and every step I take.

**5. May we know the secret behind your success?**

Hard work, Sincerity & Dedication.

**6. Most of the students from your college are ranked high in the society. How do you feel about it?**

I feel very proud and it became possible by dedication & team spirit of our students, teachers and the management. My students are placed worldwide whenever they mail me about the same, I feel very happy.

**7. Your view about teachers and today's education...**

For better upliftment of today's youth, teachers play an important role. These teachers should have good qualities like, kind hearted, determination and should be motivating in nature.

I believe, Education is the key to every human being and is the only sword (weapon) to win the world.

**8. Five years from now where would you like to see our college?**

It is not in my hands, it is in the hands of our teachers and I want to see SSEC with 100% placements obtaining top university ranks. But surely I want it to be at the top among all the other engineering colleges in our region.

**9. Like every individual says that they need to cross hurdles to get into a good position. So how do you motivate yourself in tough situations?**

I was not born with a silver spoon. Initially I worked as a clerk for 8 years. Then I started my own business by finding right solutions in tough situations. That is how I motivated myself when I was young.

**10. Sir, being responsible to such a big institution like this, how do you get time to spend with your family?**

Initially I got very less time to spend with family since I spent much of my time serving people. Nowadays I get more time to spend with my family as my children are shouldering part of my responsibilities.

**11. Who is your role model?**

Dr. M.G Ramachandran (MGR), actor & former Chief Minister of Tamil Nadu. Dr.MGR conveyed good and motivating messages through his songs and acting in films for the upliftment of the poor & weaker section.

**12. Your advice to younger generation.**

I want the students of this generation to be self employed. They should not be job-seekers; they should be job-providers.

Illiteracy and poverty is more in our nation. Teachers and students should take part and contribute in the development of our nation. Only by doing so, Dr A.P.J Abdul Kalam's dream goal 2020 of India becoming a developed nation can be achieved.

## SASTIYAPTHAPURTHI

APRIL 2nd 2012 is our beloved CHAIRMAN's 60th BIRTHDAY & our SAI RAM family celebrates his SASTIYAPTHAPURTHI in this occasion. MANAGEMENT, PRINCIPAL, STAFF & STUDENTS seek the blessings of our CHAIRMAN and we pray our Almighty to provide all the support and success to his future endeavors.

## "Experiences of NAVEEN & AKASH"

Meeting with chairman was pleasant surprise for us. It was wonderful experience spending whole day with him. The hospitality was very amazing and we felt whether we deserved for it. At least Once in a College time, all our students should visit Chennai and must spend time with our beloved chairman. It is fervent appeal to my student community.

## INTERNET MELA

An Internet Mela was organized by Computer Science & Engineering Department of Shirdi Sai Engineering College from 3rd to 5th November 2011 in association with Government of Karnataka, Education department. This Internet Mela was organized for high school students of VIII, IX, X standard students of rural school surrounding Anekal Taluk to create awareness about internet. More than 900 students got benefitted through this program.

# Business icon of SSEC

The event was organized by EDC in the seminar hall on 21st February 2012. There were 14 stalls in the event from students of various departments of our college which offered products ranging from handicrafts, cosmetics, CDs, Photos, Guessing the price of a product and mouth smacking food delicacies.

A highly interactive, experiential exercise which involves students becoming instant entrepreneurs with limited resources. SSEC, Bangalore students were given 'seed capital' of Rs. 100 to start their venture and the outcome of the exercise is shared here.

Which functions as a platform for budding entrepreneurs and exposes them to a real market scenario.

The objectives of this event are to expose students to: Identify an opportunity, Team Building, Optimum utilization of resources, Developing marketing and advertising skills, Formulating pricing strategies, Nurturing selling skills, Importance of business ethics.

The event was successful that the students were successfully sold their products within the prescribed time. The students are very happy to take back the profit which varies from 24% to 300%. The sales were assessed by different members.

Finally the "Business Icon of SSEC" was selected by the panel by reviewing the Sales of different stalls. Prizes will be given during the Cultural day for other categories also.
