

Clean India ! My India !!

We have all been taught in our schools that cleanliness is next to Godliness. But, today we have pushed ourselves to a condition to organise a campaign for clean India. Not just in villages or towns even in Metropolitan cities like Bengaluru where millions of educated people live, we face the problem of littering. We believe that, the best solution to clean India is to stop polluting.

Isn't it our responsibility to keep our Mother India clean? For keeping a country clean, change should be brought in ourself. It will not take decades, we can live in Clean India even in our times.

Let's be the change... Lets join hands together to keep our country clean.

Better keep yourself clean and bright
