About ISTE

Indian Society for Technical Education (ISTE) is a national level professional nonprofit society in the field of technical education. In the year 1941, ATPI, the Association of Principals of Technical institutions, was initiated. In 1967, the ATPI saw its conversion to ISTE or Indian Society for Technical Education. This conversion was intended to expand its activities in order to advance the cause of technological education. The ISTE plays an important role to improve the standards of education. It cooperates with Central and State Governments, industry and approved institutions, professional bodies, like AICTE, MHRD, DST and individuals in the field.

About the Convention

ISTE is highly reputed society in improving quality education in India and it has vast history of developing technical faculty. ISTE along with technical institutions conducts annual faculty conventions at national level and at the level of various sections with the objective of bringing together teaching community from different corners to discuss, and exchange knowledge on the issues related to upliftment of technical education in India.

SSCE is always a pioneer in implementing any pursuit that will contribute to quality technical education. Keeping in view the objectives to be achieved through the convention, we identified the theme "Role and Impact of Information And Communication Technology (ICT) On Higher Education". Use of ICT has transformed many core activities of higher education system. It has become an indispensable support system for higher education as it could address some of the challenges facing by higher education system. ICT enabled education will ultimately lead to the democratization of education and it has the potential for transforming higher education in India. The theme on ICT is selected with an objective of augmenting optimal utilization of opportunities arising due to diffusion of ICTs in higher education system.

Being a brain child of the two reputed organizations this convention will mark milestones in the path of enhancing the quality of higher education in India.
