Sub: Report on "Gap between Industry - Institute" & "Interview tips and Techniques" – On 28<sup>th</sup> Feb 2019 – by an Industry person and Alumni - Pre-Final year students - Reg.

With reference to the above subject, Sri Sairam College of Engineering Alumni Association and Training and Placement Cell of SSCE jointly conducted a program "Gap between Industry and Academics" & "Interview tips and Techniques" to the Pre-Final Year Students.

Mr. Chethan Raj, Head – RPO Solutions & Operations, Scalenetworks was the resource person from the Industry addressed students about Gap between Industry- Institute & how to meet Industry expectations in today's scenario. He also asked students to inculcate the habit of being touch with ongoing research & recent trends in industry. He motivated students to involve them in more of outcome based projects & try being a job giver than job seeker.

Mr Harish Kumar T, Alumni- Department of Computer Science Engineering, 2012 pass out, gave many tips to pre-final year students on how to make them marketable, what to highlight in resume like projects, special skills, certificate courses etc. As an entrepreneur he too motivated students to become job givers than job seekers.

The session was very interactive, students asked many questions to Mr. Chethan Raj & Mr Harish Kumar, on how to face interviews, how to write their resume, business is better or working is better & the questions went on & on, students interacted with resource persons even after the session was completed.

The resource persons signed off by injecting positivity in our students, students too were happy with both the sessions.

This is for your kind Information Sir.

Yours Sincerely,

V. Bheemeswara Reddy  
Training & Placement Officer
