

DEPARTMENT OF MECHANICAL ENGINEERING

A Guest Lecture Report on Basic Thermodynamics –Pure Substances,Ideal and Real gases ”

- **Venue:** Lecturer Hall-216
- **Date & Time:** 22nd November 2019 (Friday) between 9.00 AM to 05.00 PM

Department of Mechanical Engineering organized a guest lecture on “Basic Thermodynamics –Ideal gas and Real gas” Third semester students participated and benefited by the event. The Speaker for the lecture was **Prof. Ravi Kumar** Senior Assistant Professor, New Horizon College of Engineering, Bengaluru

In this lecture students learned about the various applications of Basic thermodynamics and Concepts of Thermodynamics. During the session students interacted with the speaker for clarifying their doubts. The overall session was fruitful and successful.
