

Report on BICYCLE STATION on 8th March 2021

Being eco friendly simply means having a lifestyle that is better for the environment. It's just taking small steps towards looking after the mother's earth to make this planet a better place for our communities and generations to come. A good way would be to start with conserving water, **driving less and walking more, consuming less energy**, buying recycled products, eating locally grown vegetables, joining environmental groups to **combat air pollution**, creating less waste, planting more trees, and many more.

In this international women's day'21, **SriSairam college of Engineering** took the environment friendly initiative of encouraging faculty and students to make use of bicycle facility inside our college campus. Our Principal Dr.B.Shadaksharappa, Management Representative Dr. R.Arunkumar, and PRO Sri. Patel are inaugurated the Bicycle station in our college campus. It's inaugurated on 8th March 2021 international women's day. To empower the sustainable goals 3 & 7 we have initiated this goal.

Yours faithfully

NSS Officer
(Manjunath K N)
