Report on the 69th Republic Day Celebrations - 2018.

27.01.2018

26th of January is a gala day for every Indian. On 26th Jan. 1950, the Constitution of India came into force and our country, India became the Republic. The 69th Republic Day was celebrated at our College Campus on 26th January 2018. The Dignitaries, The Vice Principal Dr. B. Shadaksharappa; PUC Principal Dr. Munireddy; CAM Sri. Gajendra; Trust Office Manager, Mr. Maheswar; 32 staff members of engineering and PUC of Sairam college and 402 students of engineering and PUC attended and graced the occasion. The Flag was hoisted by the Vice Principal Dr. B. Shadaksharappa.

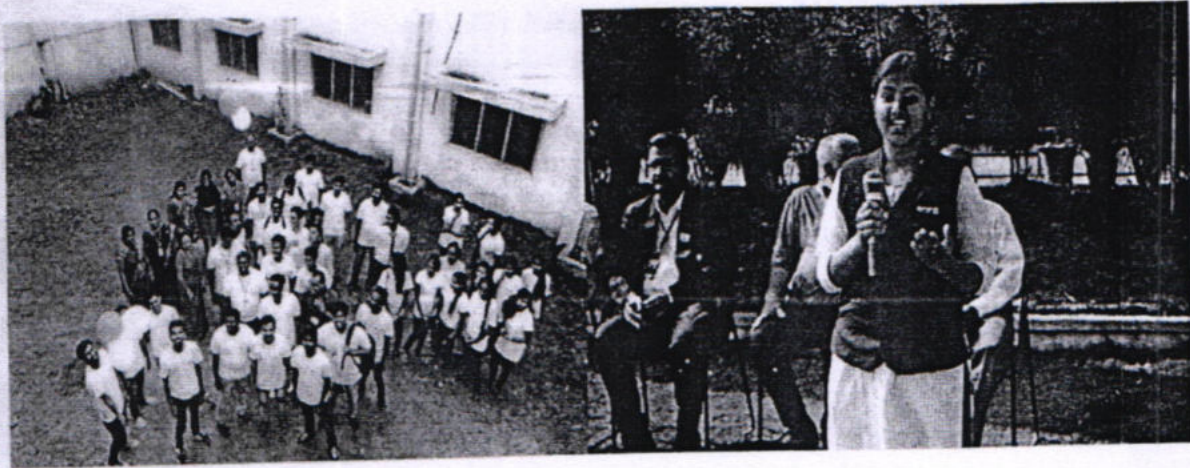

Welcome speech was delivered by Mr. Ananda Raju.K, Lecturer in Kannada SSPUC. Dr. B. Shadaksharappa in his address highlighted the significance of the day, Republic means the supreme power of the people living in the country and the only public has the right to elect their representatives as a political leader to lead the country in the right direction. So, India is a republic country where we people elect our leaders as a president, prime minister, etc. Our great Indian freedom fighters have struggled a lot to get our freedom back. They have

struggled so that their future generations may live without struggle and led country ahead. and made the students aware that the future of their country lies in their hands.

Dr. muni reddy principal in his speech highlighted Republic day is celebrated on 26th January from since 1950. Today we all are here to celebrate 69th republic day of our nation. India got independence since 15th of August 1947, which is celebrated as Independence Day. And on 26th January 1950 the constitution of India came into force, so we celebrate this day as republic day of India. This was followed by dances and songs performed by Engineering and PUC students. The function ended with the Vote of thanks given by Manjunath PED.

Sweets were distributed at the end of the function.

Report on 67th Republic Day

Venue: Sri Sairam Campus

29th January 2016

67th Republic Day was organized with much efforts on 26st January 2016 in our college campus. Dr. Y Vijayakumar (Principal, SSCE), Dr. R. Arunkumar (MR, SSCE), Mrs. Komala, (Principal, SSPU), 25 staff and 380 Students were gathered to celebrate this auspicious day.

Mr. Maheshwar, (Manager, Trust Office) inaugurated the celebrations with offering tribute to our national leaders, flag hoisting and with National Anthem.

Ms. Lakshmi, Lecturer in Economics, delivered the welcome speech. Dr. R. Arunkumar shared his view on the duty and dedication of the freedom fighters. Mrs. Komala, spoke about the woman power in the nation.

There are many cultural programs performed focusing on the history and culture of India. These cultural items included patriotic songs, folk dances and speeches. Priya of SSPUC sang a song, " e mere watanke logon..." in a very melodious voice.

Praveen and team from ECE also presented skit based on fight against terrorist. The message of the skit was to convey that India would not tolerate the terrorist

activities in the country and our brave soldiers were ready to fight terrorism tooth and nail.

Then there were speakers who through their speeches invoked the precious contribution of great freedom fighters.

The function concluded with great energy and at last sweets were distributed to all. Despite weather being inclement, we enjoyed Republic Day with great enthusiasm. Along with other students, we will never forget this wonderful day.

Club Activity in college

BY-SSCE MATH CLUB

On

16/11/18 & 17/11/18

We were privileged to organise club activity based on “Familiarization of mathematical symbols ” on 16/9/18 and “Importance of mathematics in real world” on 17/9/18 in submangla govt. high school campus

On the first day on 16/9/18 all of our maths club members and co-ordinator Mrs.Manjula were assembled in room no. 317 for this program which included the following

- Team A was the start with their presentation on mathematical symbols they were very good with their information about mathematical symbol.
- Team B was the next to present they were very good in their presentation skills they presented on infinity.
- Venkatesha.P was the judge for this event which was a grand success we were privileged to have this session we were authorised by most of the information given by our club members.
- Team C presented on integration which had a many of the information. Here are some snaps of the events

Second day of program 17/11/18: On the second day of our program we visited Submangala government high school where we were given an opportunity to spread awareness about maths. We gave them a glance about a life without maths. We had given them basic information about maths as well as the awareness about maths not only in their daily life but also all around the world. We explained importance of maths in pharmaceutical, medical, civil so on. Students there were also so supportive our main aim was to spread awareness about maths. Those students were also interactive with our students.

A report on "Parisara SamrakShane" program conducted at Chikkahosahalli primary school

Prof. Rajini, Department of Mechanical Engineering and Prof. Jyothi. B, Department of Science and Humanities of Sri Sairam College of Engineering arranged a Programme 'Parisara Samrakshane' for the students of Chikkahosahalli primary school through Regional education office of Anekal on 24 /01/2018.

We reached the Chikkahosahalli primary school at 11.00am. They provided only two hours for conducting this event. Our students explained about environment uses in our daily life...like we need fresh air for breathing, good water for drinking. These are all will get from the nature. So, we have to maintain cleanness in our surroundings. Child were made understand that Plants and trees are considered to be the rescuers of the nature. If we wouldn't save them, our next generation will have to pay for it. So, just take care of them, they'll take care of you. A study shows that having trees in your neighbourhood will keep you away from many mental and physical diseases. They'll have a very stimulating impact. We shown the power point presentation to them effectively.

The students were given information about Global warming which has become hot topic of the day. Earth's temperature is increasing day by day which is triggering many issues regarding health, nature conservation, ecosystem and many others. One of the major reasons of this issue is the cutting of trees. Trees act as absorbs for dangerous ultraviolet and greenhouse gases. They contribute a lot in reducing environmental temperature by acting as natural air conditioners and a source of rain. Consequently, they are one of the major controllers of global warming.

Total no. of students present were 62

A Report on 'Renewable Energy-II program conducted at Hosur Public school

Dr. Harikrishna and Prof. Manjula S, Dept. of Science & Humanities of Sri Sairam College of Engineering have arranged a Programme 'Renewable Energy-II' for the students of Hosur Public school through Narendra Nambikkai Natchathiram, NGO, on 29/01/2018.

The team has explained that Renewable energy is energy that is collected from renewable resources, which are naturally replenished on a human timescale, such as sunlight, wind, rain, tides, waves, and geothermal heat.

Renewable energy won't run out, maintenance requirements are lower, renewables save money, renewable energy has numerous health and environmental benefits, renewables lower reliance on foreign energy sources, higher upfront cost, intermittency and storage capabilities.

A brief note on differentiation b/w the renewable and non-renewable energy sources and the simple power point presentation demonstrating the steps to be taken in renewing the energy sources was also given.

A report on programme 'Eliminating Open Defecation in India' conducted on Kada Jakkannahalli

Prof. Yogananda, Dept. of Mechanical and Prof. Manjula, Dept. of S&H, Shirdi Sai Engineering College have arranged a programme Eliminating Open Defecation in India for the villagers of Kada Jakkannahalli on 11/04/2014 through Adithi Foundation, a government approved NGO, Anekal.

Open defecation is the human practice of defecating outside (in the open environment) rather than into a toilet. People may choose fields, bushes, forests, ditches, streets, canals or other open space for defecation. They do so because either they do not have a toilet readily accessible or due to traditional cultural practices. Open defecation poses a serious threat to the health of children in India.

A Report on 'Dengue Awareness' program conducted at Sri Chaitanya school, Hosur

Prof. Yogananda, Department of Mechanical Engineering and Prof. Manjula.S, Department of Science and Humanities, Sri Sairam College Engineering have arranged a Programme 'Dengue Awareness' for the students of Sri Chaitanya school, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization on 17/09/2016.

Dengue fever, also known as breakbone fever, is a mosquito-borne infection that can lead to a severe flu-like illness. It is caused by four different viruses and spread by Aedes mosquitoes.

Symptoms range from mild to severe. Severe symptoms include Dengue Shock Syndrome (DSS) and Dengue Hemorrhagic Fever (DHF). These usually require hospitalization.

There are currently no vaccines. The best method of prevention is to avoid mosquito bites. Treatment is possible if diagnosis occurs before the patient develops DSS or DHF.

The team showed the statistics of deaths happening in the country due to Dengue giving one example of our own student Ms. Chandana who was very bright in studies. The students were given instructions about how to protect themselves from this fatal disease and what precautionary measures should be taken to prevent the spreading of such diseases.

Total number of students present was 89.

A Report on 'Aranya Sampaththu' conducted at Mattana Halli

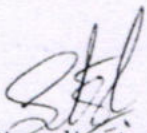

Prof. Santosh Kumar, Department of Electronics and Communication Engineering & Prof. Yogananda, Department of Mechanical Engineering of SSCE have arranged a Programme **Aranya Sampaththu** for the villagers of Mattanahalli on 02/01/2018 through Nature & Wild Life conservation committee, a government approved Non-Government Organization, Bannerghatta.

Wildlife is a precious gift of God to this planet. The term 'wildlife' not only caters to wild animals but also takes into account all undomesticated lifeforms including birds, insects, plants, fungi and even microscopic organisms. For maintaining a healthy ecological balance on this earth, animals, plants and marine species are as important as humans. Each organism on this earth has a unique place in food chain that helps contribute to the ecosystem in its own special way. But, sadly today, many of the animals and birds are getting endangered. The natural habitats of animals and plants are being destroyed for land development and farming by humans. Poaching and hunting of animals for fur, jewellery, meat and leather are other great factors contributing to wildlife extinction.

The team explained about Wildlife conservation refers to the well-planned practice of ensuring protection for wild animal species, their habitats and plants, the relation between the forests and towns. Also, a demonstration about how the activities like cutting the trees, killing wild animals and fire spreading is destroying forests, was given.

Total no. of students present was 70.

A Report on 'Tips for Healthy living' program conducted at Samandur

Prof. Manjula S & Prof. Sasikala.J, Department of Science & Humanities have arranged a Programme **Tips for Healthy living** for the villagers of Samandur, Guddanahalli, Anekal with the help of Nature & Wild Life conservation committee, a government approved Non-Government Organization, Bannerghatta, on 17/01/2014.

The team showed the presentation on how to keep ourselves clean during our normal daily activities such as working and playing. The team suggested the villagers to have plenty of fruits and vegetables in their food and reduce salt & sugar intake, to drink plenty of fluids and maintain healthy body weight, to get enough sleep and meditate to calm down the mind and soul.

SHIRDI SAI ENGINEERING COLLEGE

The team felt very happy when villagers expressed that their family members including children are washing hands with soap before preparing and/or eating food and what are the health benefits of being hygiene.

Total number of students participated in this event is 350.
