A report on "What Next" program conducted at Indlawadi Government High school

Prof. Madhava Rao, Department of Electrical and Electronics Engineering and Prof. Venkatesh P, Department of Science and Humanities of Sri Sairam College of Engineering arranged a Programme 'What Next' for the students of Indlawadi Government High school through Regional education office of Anekal on 22/02/2018.

Most of the students are having the confusion in choosing the courses after completing their school education. Even village parents are not much aware about their children education. So, with this thought we planned to conduct one event for rural school children. Our college students were made understand about the various career options available in front of them after passing 10th standard.

Nowadays, choosing Science branch becomes very less. We explained the importance of science and next what are all the options are there. They can choose intermediate, diploma and ITI courses, para-medical and allied health care courses, short term certificate courses in animation, graphic designing, web designing, 2D & 3d animations, vocational courses like diploma in DTP & printing technology, insurance, travel, hotel management and many more.

The students were advised to explore their interest as they have lots of subjects in options to select and not to select options depending on which subject you like or which subject is easy. To Select the field which they don't feel bored even after studying so much. Don't depend on results/Marks. Percentage is not the only factor, there are many other things like interest and ability to study. Decide now itself what they want to study after 10th and what they need to study to achieve that goal.

Total number of students present were 67.

A report on Hygiene for Healthy Living program conducted at Thammanayakanahalli

Prof. Aruna, Electronics and Communication Engineering and Prof. Manjula S, Department of Science and Humanities of Sri Sairam College of Engineering arranged a Programme 'Hygiene for Healthy Living' for the students of Thammanayakanahalli Primary School through Regional education office of Anekal, on 17/01/2018.

Our team left the college around 9.30am and reached the Thammanayakanahalli at 10.15am. There students and Staffs are welcomes us in a good manner. Our Students were made to understand that Good personal hygiene habits include: washing the body often, washing hands with soap before preparing and/or eating food. During normal daily activities, such as working and playing, disease causing germs may get onto the hands and under the nails. Health and hygiene go hand in hand. Without proper hygiene, we cannot live healthy living. Maintaining personal hygiene is not only important for looking appealing, it is also important for overall well-being of a person.

A report on "Child Abuse program" conducted at Chudahalli school

Prof. Aruna, Dept. of Electronics and Communication Engineering and Prof. Manjula.S, Department of Science & Humanities of Sri Sairam College of Engineering arranged a Programme 'Child Abuse' for the students of Chudahalli primary school through Regional education office of Anekal, on 02/01/2018.

Child abuse is when a parent or caregiver, whether through action or failing to act, causes injury, death, emotional harm or risk of serious harm to a child. There are many forms of child maltreatment, including neglect, physical abuse, sexual abuse, exploitation and emotional abuse. Outcomes of child abuse can result in both short- and long-term injury, or even death. Some children may be unaware that they are victims of child abuse.

Child abuse is widespread and can occur in any cultural, ethnic, or income group. Physical abuse involves non-accidental harming of a child by, for example, burning, beating, or breaking bones. Verbal abuse involves harming a child by, for example, belittling them or threatening physical or sexual acts. Emotional trauma can result from several forms of abuse

A Report on "Renewable Energy-I" program conducted at Thimmayyanadoddi Primary School

Dr. Harikrishna and Prof. Manjula S, Department of Science and Humanities of Sri Sairam College of Engineering have arranged a Programme 'Renewable Energy-I' for the students of Thimmayyanadoddi Primary School through Regional education office of Anekal, on 27/01/2018.

The team has explained that Renewable energy is energy that is collected from renewable resources, which are naturally replenished on a human timescale, such as sunlight, wind, rain, tides, waves, and geothermal heat.

Renewable energy won't run out, maintenance requirements are lower, renewables save money, renewable energy has numerous health and environmental benefits, renewables lower reliance on foreign energy sources, higher upfront cost, intermittency and storage capabilities.

The team also demonstrated through power point presentation about the various projects undertaken by our students on the renewable energy.

A brief note on differentiation b/w the renewable and non-renewable energy sources and the simple power point presentation demonstrating the steps to be taken in renewing the energy sources was also given.

Students were very happy to say that the program was very informative and expecting many more such sessions from us in future also.

Total number of students present were 86.

A Report on 'Be a Volunteer' conducted at Maharishi Vidya Mandir school, Hosur

Mr. Manjunath, Physical Education Director, Mr. Prabhakaran, Estate Officer, SSCE have arranged a programme **Be a Volunteer** for the students of Maharishi Vidya Mandir school, Hosur on 20/07/2017 through Narendra Nambikkai Natchathiram, A government approved NGO, Hosur.

A natural event such as a flood, earthquake, or hurricane that causes great damage or loss of life. Natural disasters are extreme, sudden events caused by environmental factors that injure people and damage property. Earthquakes, windstorms, floods, and disease all strike anywhere on earth, often without warning. The number of people suffering food crises as a result of natural disasters has tripled in the last thirty years.

A power point presentation and a documentary video were arranged to the higher secondary students along with teachers and head master of the school to show the after effects of natural calamities like earthquake, land slides and other disasters and what is our role as a citizen of the country to extend our help to the affected areas and victims.

A Report on 'Aranya Sampaththu' conducted at Mattana Halli

Prof. Santosh Kumar, Department of Electronics and Communication Engineering & Prof. Yogananda, Department of Mechanical Engineering of SSCE have arranged a Programme **Aranya Sampaththu** for the villagers of Mattanahalli on 02/01/2018 through Nature & Wild Life conservation committee, a government approved Non-Government Organization, Bannerghatta.

Wildlife is a precious gift of God to this planet. The term 'wildlife' not only caters to wild animals but also takes into account all undomesticated lifeforms including birds, insects, plants, fungi and even microscopic organisms. For maintaining a healthy ecological balance on this earth, animals, plants and marine species are as important as humans. Each organism on this earth has a unique place in food chain that helps contribute to the ecosystem in its own special way. But, sadly today, many of the animals and birds are getting endangered. The natural habitats of animals and plants are being destroyed for land development and farming by humans. Poaching and hunting of animals for fur, jewellery, meat and leather are other great factors contributing to wildlife extinction.

The team explained about Wildlife conservation refers to the well-planned practice of ensuring protection for wild animal species, their habitats and plants, the relation between the forests and towns. Also, a demonstration about how the activities like cutting the trees, killing wild animals and fire spreading is destroying forests, was given.

Total no. of students present was 70.

A Report on 'Save Water' conducted at Hosur Public school

Prof. Gopinath & Prof. Madhava Rao, Dept. of Electrical and Electronics Engineering of SSCE have arranged a Programme Save Water for the students of Hosur Public school through Narendra Nambikkai Natchathiram, Non-Government Organization on 21/06/2017.

Students were made to understand that water covers 70% of the earth, but only 1% is easily accessible to us. With water being such a necessary resource for life on earth, reducing your water footprint is a great way to take action. Water conservation can be simple, and it starts at home. Whether you're doing laundry, washing the dishes, brushing your teeth, or watering your plants, there are several strategies that will help you save water.

The team showed the mime to explain very effectively to the small children of the school, how to prevent the loss of water in our routine life and a power point presentation on water pollution was also shown.

A Report on 'Dengue Awareness' program conducted at Sri Chaitanya school, Hosur

Prof. Yogananda, Department of Mechanical Engineering and Prof. Manjula.S, Department of Science and Humanities, Sri Sairam College Engineering have arranged a Programme '**Dengue Awareness**' for the students of Sri Chaitanya school, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization on 17/09/2016.

Dengue fever, also known as breakbone fever, is a mosquito-borne infection that can lead to a severe flu-like illness. It is caused by four different viruses and spread by Aedes mosquitoes.

Symptoms range from mild to severe. Severe symptoms include Dengue Shock Syndrome (DSS) and Dengue Hemorrhagic Fever (DHF). These usually require hospitalization.

There are currently no vaccines. The best method of prevention is to avoid mosquito bites. Treatment is possible if diagnosis occurs before the patient develops DSS or DHF.

The team showed the statistics of deaths happening in the country due to Dengue giving one example of our own student Ms. Chandana who was very bright in studies. The students were given instructions about how to protect themselves from this fatal disease and what precautionary measures should be taken to prevent the spreading of such diseases.

Total number of students present was 89.

A Report on 'Applications of Science in Daily Life' program conducted at Maharishi Vidya Mandir School, Hosur

Prof. Manjula S & Prof. Prakash, Department of Science and Humanities of Sri Sairam College of Engineering have arranged a Programme **Applications of Science in Daily Life** for the students of Maharishi Vidya Mandir School, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization on 12/10/2016.

Science is important because it influences most aspects of everyday life, including food, energy, medicine, transportation, leisure activities and more. Science improves human life at every level, from individual comfort to global issues.

The team explained how Applied Science is used to apply existing scientific knowledge to develop more practical applications, such as technology or inventions. In natural science, basic science (or pure science) is used to develop information to explain phenomena in the natural world.

Sri
SAIRAM
COLLEGE OF ENGINEERING

The children were very enthusiastic to understand in our daily life, how science is useful to us in many ways like the food you eat (grown in farms, where fertilizers and pesticides are used, with farm equipments and transported to where you are), the cloths you wear (made of synthetic or natural fibers, colored, made in factories), the house you stay in (made of concrete, which is made of cement), the transport you use for moving around (bicycle, motorbike, car, bus, train, ship, airplane etc), the medicine you take when you are sick, the fire you use for cooking (started by a match stick and sustained by petroleum based fuel), entertainments you enjoy(movies, music...)

Total no. of students present were 130.

A Report on 'Arogyave Namma Bhagya' conducted at Kada Jakkanahalli

Prof. Aruna, Dept. of Electronics and Communication Engineering and Prof. Sheela Devi, Dept. of Computer Science & Engineering, of SSCE have arranged a Programme Arogyave Namma Bhagya for the citizens of Kada Jakkanahalli on 20/4/2017 through Advithi foundation, NGO.

In order to maintain a good health, we need to eat balanced food, daily mild exercises, fresh air, clean water, maintain good posture, enough sleep and rest, maintain cleanliness, regular medical check-ups, follow our elders, parents, and teachers etc.

The team explained very effectively to the small children of the school, the most significant cleanliness campaign by the Government of India and convinced the students that our honourable Prime Minster Narendra Modiji has led a cleanliness pledge at India Gate.

A Report on 'Sapling Programme' for the old age people of Brindavanam Senior citizen homes, Baglur road, Hosur

Mr. Manjunath, Physical Education Director and Prof. Manjula S, Department of Science and Humanities, Sri Sairam College of Engineering arranged a 'Sapling Programme' for the old age people of Brindavanam Senior citizen homes, Baglur road, Hosur through Narendra Nambikkai Natchathiram, NGO on 18/11/2015.

Senior citizens were convinced that tree planting provides a variety of environmental benefits such as protecting water quality and quantity, reducing soil erosion, cleaning our air and providing wildlife habitat. Trees offer many environmental benefits. Trees reduce the urban heat island effect through evaporative cooling and reducing the amount of sunlight that reaches parking lots and buildings. This is especially true in areas with large impervious surfaces, such as parking lots of stores and industrial complexes. Trees improve our air quality by filtering harmful dust and pollutants such as ozone, carbon monoxide, and sulfur dioxide from the air we breathe. Trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection, and homes for many birds and mammals.

A Report on 'Health awareness program' for the old age people of Suki homes Trust, Mathigiri, Hosur

Mr. Manjunath, Physical Education Director along with NSS volunteers of Sri Sairam College of Engineering arranged a '**Health awareness program**' for the old age people of Suki homes Trust, Mathigiri, Hosur through Narendra Nambikkai Natchathiram, NGO on 08/01/2016.

The senior citizens were made to understand that health is the state of fulfilled physical, mental, psychological, and social needs, allowing an individual to flourish. Instead of implying the absence of injury or disease, health indicates a wholeness and wellness of self. Our health is affected by a wide variety of factors, from the genes that we inherit from our parents to the climate we live in and the work we do.

But there is a growing body of scientific evidence that shows our lifestyles play a huge part in how healthy we are.

The team has given the talk on how should plan our various routine activities which keeps the body fit and healthy.

Total no. of students present were 70.

16/02/2016

A Report on 'Tree Planting Programme' for the old age people of Brindavanam Senior citizen homes, Baglur road, Hosur

Mr. Manjunath, Physical Education Director and along with few students of Sri Sairam College of Engineering arranged a 'Tree Planting Programme' for the old age people of Anugraha Foundation Senior citizen homes, Baglur road, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization on 15/02/2016.

Senior citizens were convinced that Trees offer many environmental benefits. Trees reduce the urban heat island effect through evaporative cooling and reducing the amount of sunlight that reaches parking lots and buildings. This is especially true in areas with large impervious surfaces, such as parking lots of stores and industrial complexes. Trees improve our air quality by filtering harmful dust and pollutants such as ozone, carbon monoxide, and sulfur dioxide from the air we breathe. Trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection, and homes for many birds and mammals.

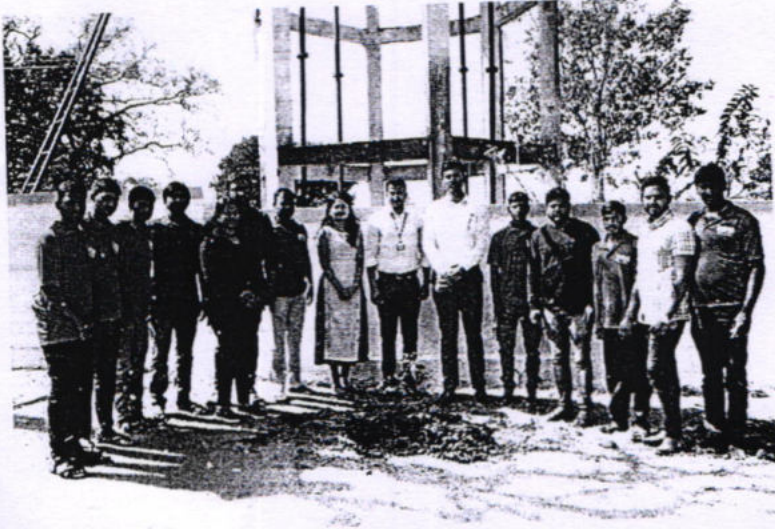

Sri
SAIRAM
COLLEGE OF ENGINEERING

The team has planted the saplings along with old age people.

Total No. of students present is 42.

06/08/2015

A Report on 'Application of mathematics in daily life' program conducted at Asian Christian School, Hosur

Prof. Manjula S, Department of Science and Humanities & Prof. Venkatesh, Department of Science and Humanities of Sri Sairam College of Engineering have arranged a Programme **Application of mathematics in daily life** for the students of Asian Christian School, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization, on 05/08/2015.

The team has made the children curious how mathematics plays a very vital role in giving simple examples like people on medication need to understand different dosages, whether in grams or milliliters. Recipes call for ounces and cups and teaspoons all measurements and decorators need to know that the dimensions of their furnishings will match the area of their rooms. Also, If you can't add or subtract correctly in money management, its going to be very difficult for you to survive in our society. Travelers often consider their miles per litre of petrol / diesel when fueling up for daily trips, Air travelers need to know departure times and arrival schedules. They also need to know the weight of their luggage, unless they want to risk some hefty baggage surcharges. Once on board, they might enjoy some common aviation-related math such as speed, altitude and flying time.

Total no. of students present were 92.

A Report on 'Swatchcha Bharath Abhiyaan' conducted at Thammanayakanahalli

Mr. Manjunath, Physical Education Director, Prof. Santosh Kumar, Department of Electronics and Communication Engineering of SSCE have arranged a Programme **Swatchcha Bharath Abhiyaan** for the villagers of Thammanayakanahalli on 15/07/2015 through Nature & Wild Life conservation committee, a government approved NGO, Bannerghatta.

The team explained very effectively to the small children of the school, the most significant cleanliness campaign by the Government of India and convinced the students that our honourable Prime Minister Narendra Modiji has led a cleanliness pledge at India Gate. On 2nd October 2014, Swachh Bharat Mission was launched throughout length and breadth of the country as a national movement. The campaign aims to achieve the vision of a 'Clean India' by 2nd October 2019.

Sri

To
The Principal,
SSCE, Anekal.

Respected Sir,

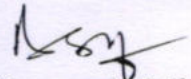

Subject: Request - Ground Preparation work - **Kaadu Praanigala Samrakshane** Program - Reg.

With Reference to the above mentioned subject, hereby I am requesting you to permit me to start ground work on **Kaadu Praanigala Samrakshane** Program, a CSR activity in Chudahalli Primary School, Anekal to be scheduled on 10/01/2016

In this regards, I am requesting you consider my request and kindly do the needful.

Thanking you,

Yours Sincerely

(Yogananda B.S.)

12/01/2016

A Report on 'Kaadu Praanigala Samrakshane' conducted at Chudahalli Primary School

Prof. Yogananda B.S. Department of Mechanical Engineering & Mr. Manjunath.K.N. Physical Education Director of Sri Sairam College of Engineering have arranged a Programme **Kaadu Praanigala Samrakshane** for the students of Chudahalli Primary School on 10/01/2016 through Nature & Wild Life conservation committee, a government approved NGO, Bannerghatta.

The team explained about the generation of wild animals and how the greedy humans and their activities impose the greatest threat to wildlife today and their numbers are decreasing year by year. Conserving and revitalizing wildlife habitat ensures both animals and humans have a healthier future ahead.

Wildlife conservation is the practice of protecting animal species and their habitats in order to prevent species from going extinct. It is achieved partially through legislation such as the Endangered Species Act, the establishment and protection of public lands, and responsible public practices that conserve wild animal populations. Major threats to wildlife include habitat destruction/degradation/fragmentation, overexploitation, poaching, hunting, pollution and climate change.

Total No. of students present was 48.

Jyothi

A Report on My Rights program conducted at Sri Vijay Vidyalaya Matric higher secondary School, Hosur

Prof. Jyothi.B, Department of Science and Humanities, Prof. Harish Babu, Department of Mechanical Engineering of Shirdi Sai Engineering College have arranged a Programme **My Rights** for the students of Sri Vijay Vidyalaya Matric higher secondary School, Hosur through Narendra Nambikkai Natchathiram, NGO on 25/10/2014.

The team gave a simple presentation and a beautiful video on the rights of every child such as every child has a right to life, every child has a right to a name at birth and a nationality, every child has the right to live with his or her parent unless it is against the child's best interests, special protection shall be given to refugee children, every child has the right to the highest standard of health and medical care possible, The child has a right to education. The state is to ensure that primary education is free and compulsory, No child shall be subjected to torture, cruel treatment, unlawful arrest, or deprivation of liberty.

SHIRDI SAI ENGINEERING COLLEGE

This program was conducted for a total number of 250 students. They were happy to learn about their rights and expecting such sessions from us in future also.

A Report on 'Amusement Programme' for the old age people of Anugraha foundation senior citizen homes, Hosur

Mr. Manjunath, Physical Education Director and Prof. Manjula S, Department of Science and Humanities of Sri Sairam College of Engineering arranged a 'Amusement Programme' for the old age people of Anugraha foundation senior citizen homes, Hosur through Narendra Nambikkai Natchathiram, Non-Government Organization on 21/03/2015.

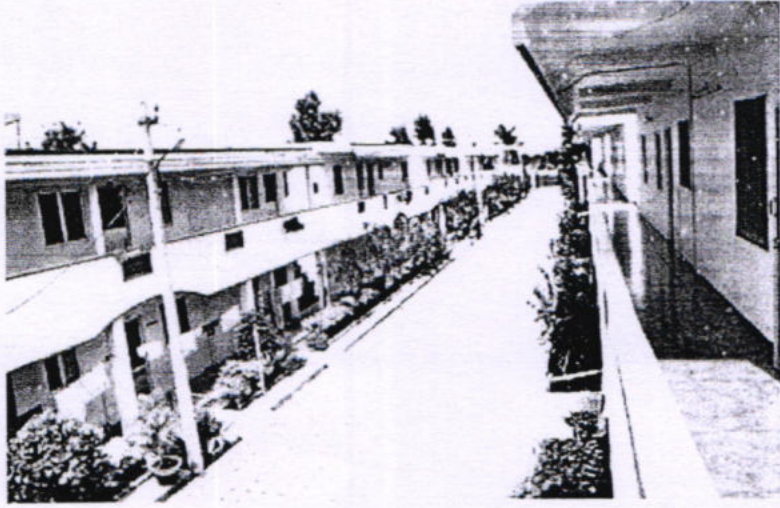

Anugraha foundation has given shelter to citizens of age more than 50 years. Anugrahaa Senior Citizen Complex offers affordable, Comfortable and Convenient units with modern facilities for a peaceful living. The layout is designed to give maximum Ventilation, light and free space all-round.

Our team has entertained the old age people through mimicry, mono acting, mime and many more programs. No. of students involved in this program is 300.

To
The Principal,
SSCE, Anekal.

Respected Sir,

Subject: Request - Ground Preparation work - **Vignanweshana** Program - Reg.

With Reference to the above mentioned subject, hereby I am requesting you to permit me to start ground work on **Vignanweshana** Program, a CSR activity in Asian Christian School, Hosur to be scheduled on 28/02/2015

In this regards, I am requesting you consider my request and kindly do the needful.
Thanking you,

Yours Sincerely

Jyothi

A Report on 'Vignanweshana' conducted at Asian Christian School, Hosur

Prof. Jyothi Sireesha.A and Prof. Prakash.V, Department of Science & Humanities, have organised Project Expo 'Vignanweshana' for 10th standard students of Asian Christian School, Hosur through Narendra Nambikkai Natchathiram, NGO on 28/02/2015.

Students along with science teachers and head master of the school felt very happy and curious to watch the innovative projects like Firefighting Drone, Smart Metro Station, Solar operated adapter, and many more designed by our students using cutting-edge technologies by integrating their respective engineering skills.

The accompanied staff members and our final year students answered the queries raised by the students and teachers of Asian Christian School.

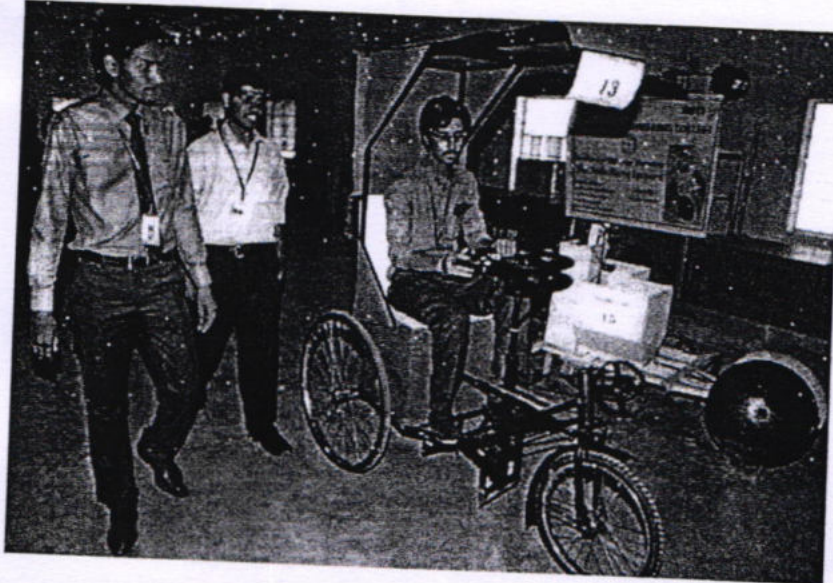

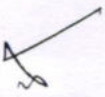

Sri

SAIRAM

COLLEGE OF ENGINEERING

Total No. of students present were 220.

Circular

The following students are accompanying the faculty members Prof. Yogananda B.S. & team for the **Eliminating Open Defecation in India** Program, a CSR activity in Kadajakkanahalli to be scheduled on 11/04/2014

All the HODs are requested to extend help by deputing them and making this program a grand success.

Principal

SHIRDI SAI
ENGINEERING COLLEGE

04/04/2014

To
The Principal,
SSCE, Anekal.

Respected Sir,

Subject: Request - **Eliminating Open Defecation in India** Program - Permission - reg.

With Reference to the above mentioned subject, hereby I am requesting you to permit me to start ground work on **Eliminating Open Defecation in India** Program, a CSR activity in Kadajakkanahalli to be scheduled on 11/04/2014

In this regards, I am requesting you consider my request and kindly do the needful.
Thanking you,

Yours Sincerely

(Yogananda B.S.)

A report on programme 'Eliminating Open Defecation in India' conducted on Kada Jakkanahalli

Prof. Yogananda, Dept. of Mechanical and Prof. Manjula, Dept. of S&H, Shirdi Sai Engineering College have arranged a programme Eliminating Open Defecation in India for the villagers of Kada Jakkanahalli on 11/04/2014 through Adithi Foundation, a government approved NGO, Anekal.

Open defecation is the human practice of defecating outside (in the open environment) rather than into a toilet. People may choose fields, bushes, forests, ditches, streets, canals or other open space for defecation. They do so because either they do not have a toilet readily accessible or due to traditional cultural practices. Open defecation poses a serious threat to the health of children in India.

List of students attended for the Event-Eliminating Open Defecation
On 11/04/2014 (1st Year)

A Report on 'Tips for Healthy living' program conducted at Samandur

Prof. Manjula S & Prof. Sasikala.J, Department of Science & Humanities have arranged a Programme **Tips for Healthy living** for the villagers of Samandur, Guddanahalli, Anekal with the help of Nature & Wild Life conservation committee, a government approved Non-Government Organization, Bannerghatta, on 17/01/2014.

The team showed the presentation on how to keep ourselves clean during our normal daily activities such as working and playing. The team suggested the villagers to have plenty of fruits and vegetables in their food and reduce salt & sugar intake, to drink plenty of fluids and maintain healthy body weight, to get enough sleep and meditate to calm down the mind and soul.

SHIRDI SAI ENGINEERING COLLEGE

The team felt very happy when villagers expressed that their family members including children are washing hands with soap before preparing and/or eating food and what are the health benefits of being hygiene.

Total number of students participated in this event is 350.

A Report on 'Jala Samrakshane' conducted at Thammanayakanahalli Primary School

Prof. Jyothi.B, Department of Science and Humanities, Prof. Mamatha, Department of Electrical and Electronics of Shirdi Sai College of Engineering have arranged a Programme **Jala Samrakshane** for the students of Thammanayakanahalli Primary School on 16/01/2014 through Narendra Nambikkai Natchathiram, a government approved Non-Government Organization, Bannerghatta.

The team explained that Water is the most important natural resource made available by mother earth to the humans. It is essential for existence of life and maintaining ecological balance. Life on earth without water cannot be imagined and history is replete with wars fought between civilizations over water showed the mime to explain very effectively to the small children of the school, how to prevent the loss of water in our routine life and a power point presentation on water pollution was also shown.

The total number of students present were 250 and the children were made to know about the seriousness of the issue water scarcity across the nation and other parts of the world. They also took oath on saving water in their everyday activities.

Students were very happy about the program and expecting such sessions from us in future.
