Introduction to E-Governance

Sri Sairam College of Engineering, supporting digital India has successfully introduced effective e-governance in various functionalities of institution with the help of different service providers

Following are the areas where we have successfully implemented e-governance in our college.

- Planning and Development
- Administration
- Finance and Accounts
- Student Admission and Support
- Examination
- Placements
- Library
- Official e-mail ID's for Staff and Students
- Bulk SMS and E-mail Transmission
- Leo Muthu Scholarship (LMS)

SRI SAIRAM COLLEGE OF ENGINEERING, BENGALURU

Digital transformation adhering the e-governance part of digital India.

Overview

The challenges of education institutions have changed over the years. Educational institutions today are facing the demands of a new environment with changing student profile and expectations, more acute resource constraints and greater demands for institutional accountability; while the challenges before educators are formidable, they motivate all of us involved in education to be more innovative, resourceful and use technology more effectively to devise new approaches to solve problems. This is what primarily is the genesis of EDUMATE ERP.

We at iTech feel proud to be associated with Sairam Group Institutions as their transformative technology partner in the successful transformation of fully automated complete student life cycle process from enquiry to course completion and managing their presence across various online platforms completely aligning with their ambitious vision of creating knowledge based society with digital empowerment and contributing to the dream of "Digital India".

Digital Transformation @ SAIRAM

With EDUMATE ERP, Processes, departments and functions at Sairam Institutions become automated and streamlined, leading to enhanced productivity, transparency and control which finally translates to higher overall efficiency. Over time, increased efficiency results in superior brand differentiation and enhanced quality for the institution. Our automated system ensures standardized and effective institution processes, reduced costs & effort, greater accountability & faster decision making.

Digital
Transformation @

Sairam
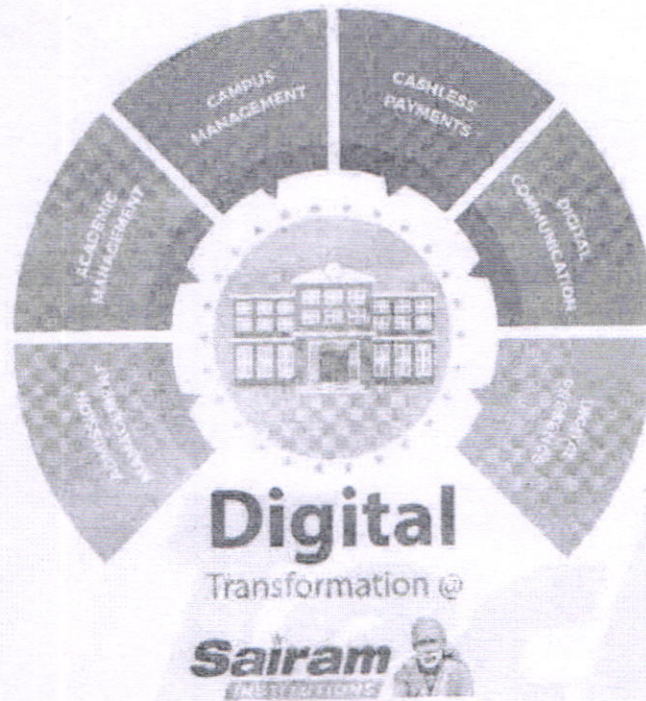

Academic:

We had implemented a powerful web based application called EDUMATE specifically designed for educational institutions like Schools and Colleges. The highlight of the application is its ability to churn performance analytics, and serving as a bridge between Parents, Teachers and Management. Such details like attendance, marks, daily home works, other specific messages, can be captured and stored in the application. The inbuilt SMS integrated feature facilitates transmission of such captured information to Parents.

EDUMATE, the systematic management tool, facilitates to achieve an well organized institutional functioning. The application collaborates Management, Faculty members & Parents with essential information, to bridge the gap of uncertainty. This improves relationship amongst resources & co ordinates institutional goals, curriculum, & students activities for the academic period. Exclusive attention on students & faculty member are effortlessly made practicable with EDUMATE, as it assist in informed decision making & in achieving positive outcomes.

a) Attendance

Conventional Attendance marking process takes most of teachers' time inside class rooms. With EDUMATE attendance review is made manageable.

- Paperless attendance marking for session/day wise is possible
- Student's absence are instantly notified to parents
- Saves excess time spend by staffs during attendance review

b) Students / Staffs Profile

Large number of paper works, information retrieval and storage volume are some of the challenges overcome by digitalized profiles of EDUMATE.

- Data creation & storage in digitalized format
- Reduce the man power required in data creation & storage
- With sorted data allows quick access to your search results

C) Cashless Facility

Make instant payments throughout the academic year with EDUMATE Cashless Facility. The online transaction module proves to be the easier gateway to pay all type of academic fee of your ward.

- Fee payment made convenient at any point of time
- Availability of term fee structure & other payment details
- Tracking of transactions history is made easier with EDUMATE

d) Marks and Analytics

Analyzing performance from the mark sheet alone results in indefinite conclusions. With EDUMATE, precise data are presented in any customized way, suitable for quick review.

- Provides visual pictures comprehending student's progress
- Reduces the use of paper reports during discussions
- Includes customized analytics themes suitable for presentations

e) Reports and Statistics

Overall monitoring of progression miss out to highlight varying performances. With EDUMATE, comparison wise detailed reports becomes useful in tracking the individual capability.

- Customizable feature to create new statistics
- Report on Individual or sub group is obtainable
- Availability of report formats with presentable templates

f) Mentoring

Creating strategies for any sub group becomes easy with Mentoring module. Detailed plan in addition to routine curriculum can be characterized for special attention.

- Staffs promptly discuss remarks & area of improvement
- To-do bulletin points alerts for staffs on customized schedule
- Mentoring & counseling pattern can be stored

g) Daily Updates

Regular updates on academic activities are send to preferred contact of the student in order to bridge the gap of miscommunication, if any.

- Parents can view the notifications circulated in institution
- Parents get alerts on important actions to be carried out
- Parents can view the timetable/homework/exam info etc

h) Dashboard

Integration of visualized academic performance to enable teachers/guardian take quick actions. This complete info on progression pattern helps provide tailored solution to improve students curriculum.

- Highlights important analytic factors for easy conclusions
- Provides customized insights required by different hierarchy
- Easy to manage intense information available at single screen

Administration:

Non-academic modules in EDUMATE empowered the operations at Sairam to focus on delivering high-quality education and not much thinking or worrying about the administrative process. It enables institutions to take care of their entire administrative tasks and assists in repetitive resource-intensive activities through seamless automation. The architecture of EDUMATE is designed in such a way that it meets the unique and varying needs of schools, colleges & universities under the Group.

It helps create an educational community where each of its stakeholders/users can get their entire job done on a click. It ensures better interaction between students, teachers, parents & institute management. It also helps the top management to make effective managerial decisions leading to better management of resources available in the institute.

a) Online Admission:

By implementing the centralized Online Admission system across Sairam Institutions created a platform to change all the traditional way of admission procedures and make lives easier for both schools and parents. With the help of eAdmission, parents can fill up the form for online submission of schools at any time from the comforts of their homes or offices, without any hassle of standing in long queues.

This Online Admission system organizes, automates, and integrates admission information making for a more effective office and allowing faculty to spend more time having quality interactions with students.

Anywhere Anytime

This automated system makes it easier for the administration to monitor the admission process from anywhere/anytime ,just a click away.

Easy Database Management

No need for downloads or shuttling of data. When a student application is accepted online, a student record will be automatically created in database.

Painless Online Registration

Allows prospective students to apply online and to monitor their status through the admissions process right from their computers. This reflect the campus culture and immediately improve the first experience a prospective student has with the institution.

Hassle Free Selection Process

We take care of all the technical details from online form publishing, hosting, scaling to online payment, and offer you a real time knowledge of student pipeline. Its helps you to publish their merit list lot earlier compared to manual way.

Real Time Reports

Various reports can be generated in quick time with great flexibility. Institutions can monitor the ongoing admission process and the management can have day to day summary of progress of the admission.

E-mail & SMS Alert

Send your prospective students "personalized" emails/SMS to enable smooth communication flow.

Online Payments

Receive online payments through payment gateway integration option.

b) Office Administration

Resource information are handy which facilitates subsequent strategies for better management practices. With informed solutions to meet needs, effortless management is obtainable.

- Provides quick notifications on pre-customized updates
- Info on academic/non academic activities & its corresponding resources
- Important management actions and strategies are brought to light

c) Digital Documentation

Finding a single document against large number of data is one of the time consuming tasks. With organized sorting of digitalized documents, paper shuffling while searching can be eliminated.

- Data digitalization for future reference
- Enables easy uploads & downloads for quick communication
- Categorized data storage to reduce your search time

d) Transport
Our Transport Management System makes the process of assigning & maintaining the buses and other vehicles easier. This Module will keep the records of vehicle details and track students' commute through their routes, buses.etc.

e) **Purchase:**

The ePurchase module will help to maintain all records of college stock. This Module handles all types of transactions regarding purchase, storage and issue of stock items to various departments.

f) **Hostel:**

The Hostel Management module is managing different activities in the college hostel. It manages the student details, room details, room allocation information, fee structure, mess bill and staff details of the hostel. It is used to create reports of student details, fee details, mess bill etc. in different printable formats. It also has the capability to track the movement of Hostel students.

g) **Library:**

Library management module helps in library functions like book searching, managing members, issuing books and circulating books. Our module is mainly for managing books, category wise books storing, and publisher's details, calculates fine and maintains the transaction history.

h) **Alumni:**

Our Alumni management software helps establishments deliberately construct and deal with their Alumni system, by encouraging engagement, group building, systems administration, correspondences and feedback. With our graduated class administration framework, your Alumni information can be unified and joined with a large group of front-end part modules and back-end organization tools.

i) **Scholarships:**

Our online scholarship management system eliminates countless spreadsheets and stacks of paper applications, automatically applying students to the applicable scholarships.

Digital Space:

We are equally excited in creating and managing the Brand 'SAIRAM' in the Digital Space like website, social platforms..etc.

a) Website:
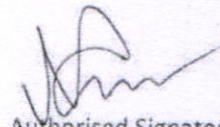

All the websites were aesthetically designed using latest responsive standards which will adapt to any screen sizes, be it desktop, laptop, tablet, mobile etc., and developed using easy to manage and update Content Management System (CMS) to enable seamless flow of content and communication.

Phone:+91-44- 2650 3257/ 58 | Fax:+91-44- 2650 3258
www.iTechind.com

b) Social Media:

With increasing number of social media users, it is inevitable for the Sairam Group Institutions to make their presence felt on the Social media like FaceBook, YouTube etc., It helps them connect with the current students/parents, prospective students/parents, alumni and community and acts as a two way communication tool. Being able to acknowledge each comment/feedback/reviews shows that we are attentive of our visitors' needs and aim to provide the best experience.

Outcome of automation implementation:

1. Complete organization of data.

2. Streamlining the admission, academic & administrative process.

3. Effectively increasing the productivity and efficiency of the office management /teaching staffs.

4. Reducing the paper work to a great extend thereby making you eco friendly and the process cost effective.

5. Strengthening relationship with parents by maintaining a proper information system.

6. Saving a lot of Man hrs, which directly means saving a lot of time and resource.

7. Increasing the reach and effectiveness of teaching faculties.

8. Automation of important units.

9. Reducing a lot of operational & communication cost.

Authorised Signatory,

Director - iTech India Private Ltd,

EASY – ERP MODULES INSTALLED AT COLLEGE

We wish to bring to your kind attention that EASY – ERP has completed 14years of operation as of Dec 2017. We are very glad to be associated with your group of institutions for the past 15 years and take this opportunity to thank you and the management in giving us this opportunity.

We confirm that the following financial and administrative modules of the ERP version EASY 5.0 are successfully running at your college for the past many years. In addition, from the year 2017 we have also installed the ONLINE FEES COLLECTION module which is very much appreciated by the users. We are listing below the modules currently in use at the college and Trust office.

Student, Teacher / Staff, Fees / Accounts & Administration Modules
1. Student Management
2. Teacher Management
3. Non Teaching Staff Data Management
4. Class Details Management
5. Class Rooms / Fixed Assets Management
6. Bus Management (Transport) - Route Allocation / Transport fees
7. Fees Management
8. Payroll
9. Accounts - General Ledger / Trial Balance, Income & Expenditure A/c, Receipts and Payments, Balance Sheet etc...

PRACTICEPERFECT

TEST DELIVERY, METRICS & ANALYSIS PLATFORM

Skill Rack
where skill is certified
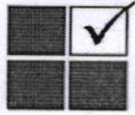

Placement Modules:

PracticePerfect - CODELAB is a product from **SkillRack.com** which helps candidates to perform well in the screening tests (MCQ type) and programming tests conducted as a part of On/Off Campus hiring process.

CODELAB MODULES

C, Java, Python 3.x Hands-On Programming Tutorials + 3*150 = 450 Practice Challenges

Hands-On Programming Tests

Top 40% - Data Structures & Algorithms

Full Stack Web Development

Advanced Problem Solving Techniques - Dynamic Programming, Graph Theory, Backtracking etc
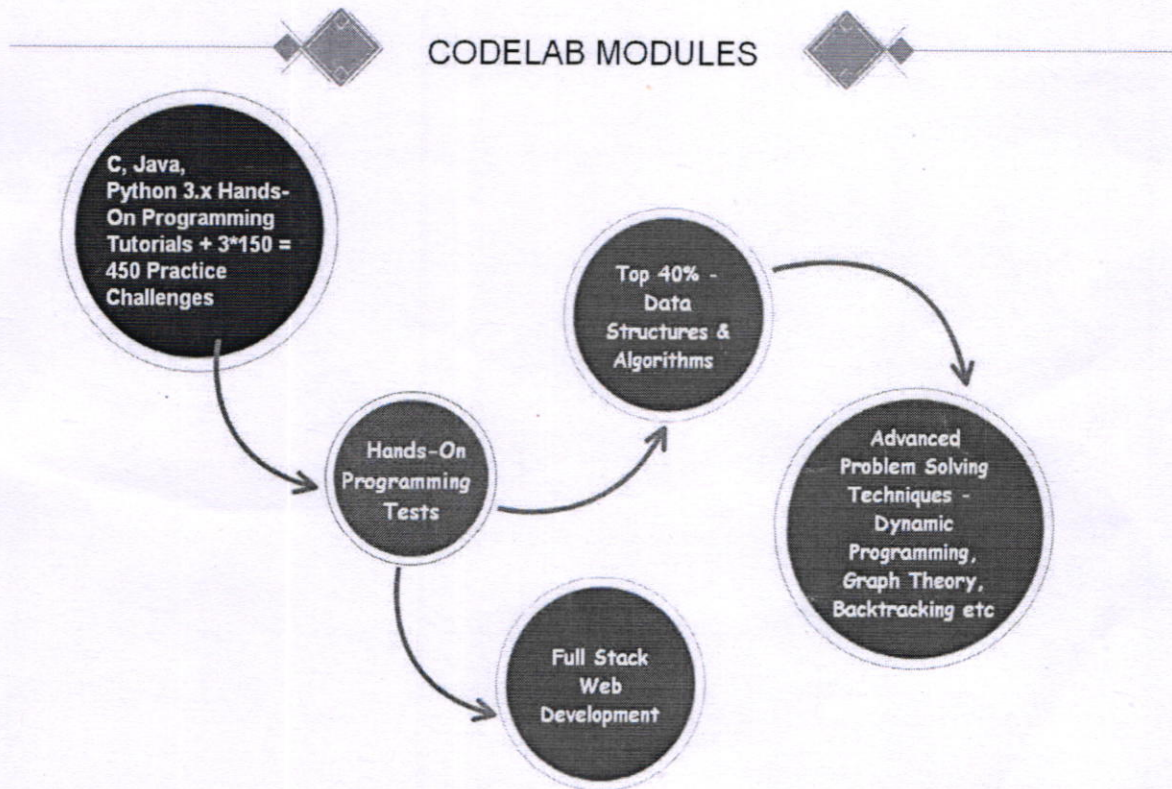

Basic Programming Online Module Details:

Module Name	Description
C Hands-On Programming Tutorial with 150 practice challenges (50 VERY EASY, 50 EASY, 50 AVERAGE)	- Hint and Solution provided for tutorial - Solution provided for all 150 practice challenges
Java SE 8.0 Hands-On Programming Tutorial with 150 practice challenges (50 VERY EASY, 50 EASY, 50 AVERAGE)	- Hint and Solution provided for tutorial - Solution provided for all 150 practice challenges

Python 3.x Hands-On Programming Tutorial with 150 practice challenges (50 VERY EASY, 50 EASY, 50 AVERAGE)	- Hint and Solution provided for tutorial - Solution provided for all 150 practice challenges
100 Programming Tests	- Difficulty level available are EASY, AVERAGE, MEDIUM, HARD, EXPERT

Data Structures & Algorithms Online Module Details:

Languages Allowed: **C, C++, Java, Python**

Module Name	Description
Arrays	40 Programming Challenges with Solution
Linked List	30 Programming Challenges with Solution
Stack & Queue	30 Programming Challenges with Solution
Binary Tree (includes BST)	50 Programming Challenges with Solution
Graph Theory	30 Programming Challenges with Solution
Heap	15 Programming Challenges with Solution
Hashing	10 Programming Challenges with Solution
Matrix Related Problems	15 Programming Challenges with Solution
Dynamic Programming	25 Programming Challenges with Solution
Back Tracking	25 Programming Challenges with Solution
Sorting	20 Programming Challenges with Solution
Greedy Algorithms	20 Programming Challenges with Solution
Recursion	20 Programming Challenges with Solution
Search	20 Programming Challenges with Solution
Bit Manipulation	30 Programming Challenges with Solution
50 Programming Tests	Difficulty level available are EASY, AVERAGE, MEDIUM, HARD, EXPERT

Planning and Development:

SkillRack.com reports help to identify strength and weakness of candidates right from first year and helps to plan skill development training based on the existing skill level of the candidates.

Type of Reports:

- Individual Score Report (with strength/weakness and detailed solution)
- Cumulative Strength/Weakness report
- Absent Report
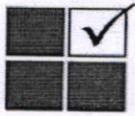

- Single Test Ranking Report
- Cumulative Ranking Report
- Mark Band Report
- College wise Strength/Weakness report – All tests, Recent 5 tests, Recent 10 tests
- Matrix score report
- Question Summary Report
- Export candidate details in Excel
- Time Utilization Report
- Candidate Usage Report (LogIn Report)
- Candidate Band Categorization Report
- Most Difficult Questions Report
- Most Time Consuming Questions Report

Online Training Modules:

Interactive online training modules using GoToWebinar (Citrix tool) helps students to learn interacting in real time with experts in programming remotely.

The online programming modules categorized as Tutorials, Track and Tests are scheduled for 1000+ hours and can be accessed and practiced by students right from 1st year.

Weekly programming competition called CPL is also held every where they can compete with students from various colleges who are clients of SkillRack.com
