Report on Empower women

Venue : Seminar hall

Date : 08/03/2013

Number of Participants Male : 15

Number of Participants Female : 36

Our College had organized a Seminar/Lecture Talk on "**Empower women**". On 08.03.2013 from 2 PM to 4 PM in our college campus. Around 51 3rd year students participated and benefited by the event. The Speakers for the lectures was Mrs. Bhagya Agarwal. omen who responded, it isn't because they aren't willing to mentor; it's that they are not being asked.

She adressed "The majority of women (54 percent) reported that they have only been asked to be a mentor a few times in their career or less, while 20 percent reported they have never been asked to be a mentor. This is problematic because women already have trouble keeping up with their male counterparts in mentoring. Men tend to seek and offer to mentor more readily, and women more typically need to be found and encouraged. Seventy-one percent of women in our study reported that they always accept invitations to be formal mentors at work. And, overwhelmingly, women reported that they would mentor more if they were asked. Even though the risk of rejection could be intimidating, more women should be seeking out mentors. The bottom line is if you want a mentor, you just need to ask"

During the discussion session participants interact with the speaker for clarification regarding their doubts. The overall program was very successful.
