Report on “Challenges for women in Research”

- **Venue : Seminar Hall**
- **Date : 13/06/2014**
- **No of Participants – Male: 21**
- **No of Participants – Female: 34**

Our College had organized a Seminar “Challenges for women in Research” on 13th June 2014. Around 55 students participated and benefited by the event. The Speakers for the lectures was **Mr. Sumanth P St Joseph University, Chennai**.

Women have strongly intended to play central roles in addressing major aspects of the world's most urgent problems such as global poverty, health, and climate change. Women have been in a continuous effort to promote health, educational, and environmental sustainability programs. In exchange, women are facing countless obstacles to ensure gender equality. “Women who have academic male partners tend to struggle, as the male partners think their careers come first and that of female partners come second. As women we struggle to master the time, energy and effort to devote to our academic research as we start from the inequalities often faced at home and move to the challenges we face at work”.

In this seminar participants known about challenges of women in research. During the discussion session participants interact with the speaker for clarification regarding their doubts. The overall programme was very successful.
