Report on National Technology Day-How technology Empowers women

Venue : Sri Sairam College of Engineering

Date : 06/01/2015

Number of Participants Male :19

Female:26

Our College had organized a Seminar/Lecture Talk on “**National Technology Day-How technology empowers women**”. On 06.01.2015 in our college campus. Around 45 third years and few final year students participated and benefited by the event. The Speakers for the lectures was **Dr. Shekar Majumdar**, Professor, NITTE Meenakshi Institute of Technology (NMIT).

In this lecture Participants learned about the Movements towards innovation. India is celebrating its National Technology day today to mark the historic feat of test firing its very first nuclear-capable missile back in 1998. The nuclear tests that took place on May 11, 1998 saw late President of India, Dr APJ Abdul Kalam leading the Indian team of scientists to successfully test-fire the Shakti-1 nuclear missile at Rajasthan’s Pokhran test range. DRDO added to the day’s importance by successfully completing the test-fire sessions of India’s Surface-to-Air Trishul missile. The missile was then introduced to the Indian Army and Airforce and came as a part of the Integrated Guided Missile Development Programme of India. With all these technological advancements being completed on the same day, then Prime Minister Atal Bihari Vajpayee announced May 11 as the National technology Day.

During the discussion, session participants interact with the speaker for clarification regarding their doubts. The overall Programme was very successful.
