Report on Guest Lecture on Save Environment Save Life

- **Venue:** Seminar Hall
- **Date & Time:** 5th June between 2.00 PM to 04.00 PM
- **No of Participants – Male :**30
- **No of Participants – Female:**30

Our College had organized a Seminar/Lecture Talk on “**Save environment Save life**”. Around 60 students participated and benefited by the event. The speaker addressed, “India is excited to host the World Environment Day this year on June 5. Indian philosophy and lifestyle has long been rooted in the concept of co-existence with nature. We are committed to making Planet Earth a cleaner and greener place “He added: “If each and every one of us does at least one green good deed daily towards our Green Social Responsibility, there will be billions of green good deeds daily on the planet.”

The Government of India has committed to organizing and promoting the World Environment Day celebrations through a series of engaging activities and events generating strong public interest and participation. From pan-Indian plastic clean-up drives in public areas, national reserves and forests to simultaneous beach clean-up activities – India will lead the initiative by setting an example.

He added: “The country has demonstrated tremendous global leadership on climate change and the need to shift to a low carbon economy, and India will now help galvanize greater action on plastics pollution. It’s a global emergency affecting every aspect of our

lives. It's in the water we drink and the food we eat. It's destroying our beaches and oceans. India will now be leading the push to save our oceans and planet."

India is emerging as a leader; given it has one of the highest recycling rates in the world. It can be instrumental in combating plastic pollution. By hosting World Environment Day 2018, the Indian government is accelerating its leadership on an issue of tremendous magnitude.

World Environment Day is a UN Environment-led global event, the single largest celebration of our environment each year, which takes place on June 5 and is celebrated by thousands of communities worldwide.

Since it began in 1972, it has grown to become a global platform for public outreach that is widely celebrated across the globe.
