## A Report on women and sustainable development goals

- Venue : Seminar Hall
- Date : 23.05.2017
- No of Participants – Male :19
- No of Participants – Female:26

Our College had organized a Seminar on “**women and sustainable development goals**”. A round 45 third year and few final year students participated the event. The Speakers for the Seminar was Prof. Ananda Nagu, Professor, AMC Engineering College , Bengaluru.

He emphasized that; ‘technology for sustainable and inclusive growth’ is the need of the hour. And it is where all - innovators, technocrats, entrepreneurs and policymakers - have an important role to play. They have to ensure that science and technology does not remain confined to a select few sectors only. Progress and growth of the country will be sustainable only if development for all is the overarching goal. For that, we have to ensure that all strata of the society enjoy the benefits of technological innovation and scientific advancements equally.

Wealth from Waste and Waste to Energy has been successfully done. A commercial plant to produce 3000 litres of ethanol from 10 tonnes of agricultural waste has been set up. It is now being scaled- up by major Oil Manufacturing Companies. Applying the latest technology for treating flowing sewage, a pilot project has been installed at Barapullah drain in Delhi under the international collaboration with The Netherlands.

With positive support from Management Representative Dr. R. Arunkumar, Principal Dr. Y. Vijayakumar and all HOD takes pleasure in appreciating the following faculty advisors for this remarkable achievement for their continuous support and motivation
