SOGO SYNERGY PVT. LTD.
IS A MICRO ENTERPRISE UNIT
HAVING A CAPACITY TO HANDLE
600MT OF E-WASTE, STATIONED
AT BANGALORE.

**KARNATAKA STATE POLLUTION
CONTROL BOARD HAS
AUTHORIZED SOGO SYNERGY
TO PROVIDE SOLUTIONS FOR
COLLECTION, STORAGE,
DISMANTLING AND RECYCLING
OF E-WASTE.**

E-WASTE

Electronics, as we know, are complex devices which are made of various materials. Some of the constituents such as lead, nickel, cadmium, mercury etc., if mismanaged at the end of its life span, could pose risks to human life and environment. Donating or recycling consumer electronics conserves our natural resources and reduces our carbon footprint.

REGULATORY MEASURES

Our Government is concerned about the proper management & disposal of used electronics and has undertaken regulatory measures in Authorising Facilities that are capable of following the environment-friendly standard process in the recycling of E-waste.

STATE-OF- THE ART WAREHOUSE

SOGO Synergy has a **State-Of-The-Art Warehouse** measuring **20,000 sq. feet** meant for storage, dismantling and recycling of electronic waste with the support of latest technology.

ENVIRONMENTALLY-RESPONSIBLE COMPUTER RECYCLING SERVICES

SOGO Synergy is one of the Industry's experienced E-waste re-cycling providers and a strong proponent for **"Green IT Re-cycling"**. We work as your partner in re-marketing IT assets, that still have residual value and recycling those that don't - In an environmentally-responsible way. Any IT assets deemed 'non-resalable' is thoroughly dismantled in a manner that allows safe extraction of the raw materials, so that they can be reused. We adhere and abide by the Pollution Control Board's guidelines for proper disposal of hazardous e-waste.

COMPUTER LIQUIDATION SERVICES

SOGO Synergy acquires used computers and other IT assets from the industry. As one of the leading asset management companies in Karnataka, we provide the best computer liquidation services, which enable companies with excess equipment to sell their used computer hardware for the highest possible return on their investment.

SOGO Synergy helps to bring back revenue into your Company's core business and allows companies to accomplish a number of operational goals, including:

- Maximizing the return on the initial cost of the equipment.
- Decreasing the total cost of ownership.
- Eliminating the cost associated with warehousing the unused equipment.
- Increasing usable work space.

**EVOLVE
ENGAGE
E-CYCLE**

DATA DESTRUCTION SERVICES

Sogo Synergy Provides fully secured Data Destruction Services. In today's business world, information is exchanged online at the speed of lightning. It is more important than ever for companies to have a trusted provider of secure data destruction services to prevent sensitive information from getting into the wrong hands.

SOGO Synergy's professional services meet the standards as identified by US Department of Defence to sanitize computer disks and data so that it can never be recovered. Companies can

rest assured that all of their data is thoroughly destroyed and that their hard drives are either rendered unreadable, formatted to re-use, or physically destroyed.

RE-FURBISHED PRODUCTS MARKETING

- SOGO Synergy is a specialist in 'recovery-of-life' in equipments & its components by refurbishing.
- We liquidate the refurbished working products through refurbished goods markets at subsidised prices.

DISMANTLING, STORAGE, AND RECYCLING

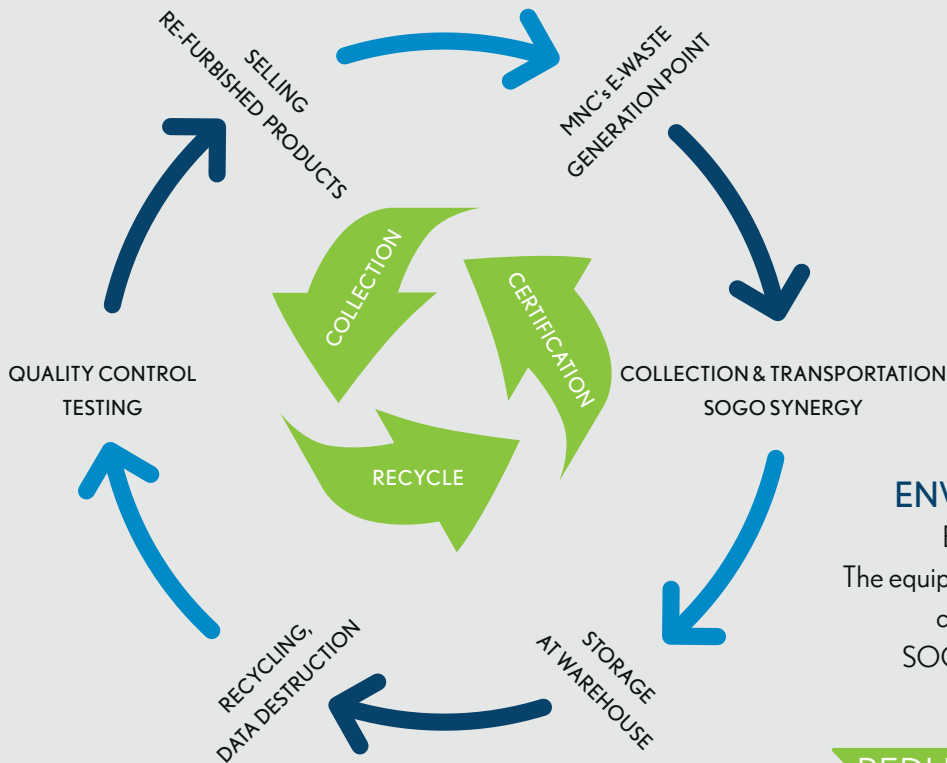

The equipment which cannot be refurbished for re-use is either dismantled and remanufactured into raw materials (i.e. metals, plastics, glass) to be marketed as re-cyclable.

DISPOSAL

SOGO Synergy ensures that E-waste does not end up in a landfill. It is sent to an agency authorised by KSCB for disposal, who process E-waste in a Zero dumping technology.

SOCIAL BENEFITS

- We donate a portion of the refurbished products to charitable organizations.
- SOGO Synergy welcomes companies who are willing to donate their unused E-waste which can be collected, refurbished and sent to charitable organizations.

ENVIRONMENTAL BENEFITS

E-waste is actually not a waste. The equipment or its parts can be re-used to help conserve our natural resources. SOGO Synergy follows "3R" E-waste Management Principles; i.e.

REDUCE > REUSE > RECYCLE

You should ask for a recycling certificate from the vendor through whom you are disposing of the E-Waste.

ARE YOU A BULK CONSUMER OF ELECTRONIC ITEMS?

Under E-Waste Management Regulation Rules 2016, Bulk Consumers* are required to:

- Channelize E-Waste to authorised Recyclers or Dismantler.
- Maintain a record of E-Waste generated and make it available for scrutiny by PCB.
- File annual returns to the concerned Pollution Control Boards(PCBs)

*As per Pollution Control Board, Central and State Government, a Bulk Consumer is defined as Public and Private Companies, Educational Institutions, Banks and Healthcare Services exceeding Rs.1 Crore Turn over or 20 Employees.
