A REPORT ON SELFIE WITH CLEANERS

Our college has organized Selfie with Cleaners **campaign** in village zuzuvadi on 26/09/2013. Nearly 22 people participated. Through this campaign the Government of India solves the sanitation problems by enhancing the waste management techniques. This movement is completely associated with the economic strength of the country.

The father of the nation, Mahatma Gandhi had once said that, "Sanitation is more important than Independence" during his time before the independence of India. He was well aware of the bad and unclean situation of India. He had emphasized a lot to the people of India about cleanliness and sanitation as well as its implementation in the daily lives. However, it was not so effective and was unsuccessful because of the incomplete participation of people. After so many years of independence, a most effective campaign of cleanliness is launched to call people for their active participation and complete the mission of cleanliness

The participation and involvement of people in this campaign was definitely huge and also started showing positive results in recent times, but the most important thing is the continuation of this process. Let us pledge together that we will continue doing our bit in making our surroundings and environment clean and green and make our country respected in the world community.
