

“ONE STUDENT ONE TREE” AICTE INITIATIVE –21.12.22- A REPORT

The one student one tree an initiative was taken up in the campus in association with Nature and wildlife club, NSS,NCC and the Dept. of EEE had organized the program on 21st December 2022 Near the campus .The initiative was to promote the students towards the creation of green and pollution free environment to create a better tomorrow. The preferred samples for Karnataka region were sandalwood, neem, banyan and oak trees. The samplings of neem ,oak and other varieties were brought from forest department, anekal and 70 students participated in the program.

Principal Dr. B. Shadaksharappa motivated the students and emphasized the importance of the program and the additional benefits for students through this program. Briefed about the importance of clean and a green environment towards better creation of globe. Appreciated the move of NSS,NCC and the Club Students for the move and advised them to participate in the extension activities which would add value to their engineering program and also add the credits. The credits count

towards the 100 credit point program towards the completion of the BE certification.

The management representative Dr. R Arunkumar supported the students and motivated them to participate in extension activities & He emphasized on the awareness to be spread across the institutes as a part of the movement by the govt. of India.

The students took procession from the campus and marched towards the identified area for plantation. The students participated in full enthusiasm and spirit and planted trees along the road side and the identified areas. At the end of the program the students thanked the principal, management and the organizers for giving an opportunity to participate this national move.

Thanking you,
