

REPORT ON SIEP E – BIKE CHALLENGE PARTICIPATION – TEAM AROHANA

The department of Mechanical Engineering and Electrical and Electronics Engineering students participated along with three faculty members in the Luminous sponsored SIEP E – Bike Challenge organised by the ISIE India at IES University – Bhopal from 24.01.2024 to 28.01.2024. The various colleges from different states participated in the wonderful event.

The event consist static event like Design validation, Technical Inspection and Dynamic Event like Self Balancing, off road test, etc. The team Arohana they have cleared technical inspection on the third day of the event and they have participated in the dynamic event from fourth day and last day.

The event served as a platform for team Arohana to create network with fellow participants, industry experts and potential sponsors. The exposure gained during the event opened the doors for the future collaboration and partnership to enhance the team visibility.

This Luminous sponsored sponsored SIEP E – Bike Challenge organised by the ISIE India was a mil stone for the team Arohana from IES University – Bhopal. Their successful participation in the static and dynamic event showcased the dedication, technical prowess and ability to compete at national level events in future.

We thank the management, principal, HOD and staff members of mechanical and Electrical and Electronics Engineering for their wonderful support.
