Submitted,

Sub: NSS Activity in Kadajakkanahalli - Report - Reg.

With respect to the above subject, on 28th February 2025, a group of 3rd-year students from the AIML department participated in a community service initiative organized by the NSS Unit, with the aim of cleaning and beautifying the village of Kadajakkanahalli. This event was part of the NSS's ongoing effort to engage students in social responsibility and environmental awareness. The event was supported by **Sri. Srikantachari, Advocate, Kadajakkanahalli**, whose encouragement and guidance played a key role in its success, and **Mr. Akshaya Koundinya**, who assisted in coordinating logistics and providing necessary resources for the volunteers.

The volunteers gathered early in the morning and were divided into teams to clean specific areas of the village, including roadsides, public spaces, and community centres. Cleaning materials such as brooms, gloves, and trash bags were provided to all participants. The team collected waste, including plastic, paper, and organic waste, while also focusing on the segregation and proper disposal of recyclables. In addition to the physical clean-up, an awareness session was held for the villagers, emphasizing the importance of maintaining a clean environment.

The villagers were receptive to the initiative, and some even joined the volunteers in their efforts. By the end of the day, significant progress was made in cleaning the village, leaving public spaces cleaner and more organized. This event directly contributed to **Sustainable Development Goal (SDG) 11: Sustainable Cities and Communities**, which aims to make cities and human settlements inclusive, safe, resilient, and sustainable. Through this initiative, the volunteers helped foster a cleaner environment and promoted sustainable waste management practices within the village, encouraging long-term community well-being.

The event was a success, not only in terms of improving the cleanliness of Kadajakkanahalli but also in fostering a sense of community and responsibility among both the volunteers and the villagers. The volunteers expressed a sense of fulfilment, while the villagers showed gratitude for the students' contribution. In conclusion, the clean-up initiative proved to be an impactful experience, strengthening the bond between the community and the students, and promoting the importance of environmental care and civic responsibility.
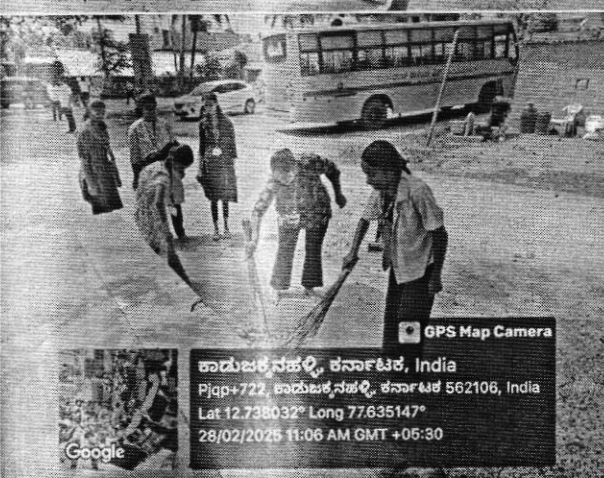

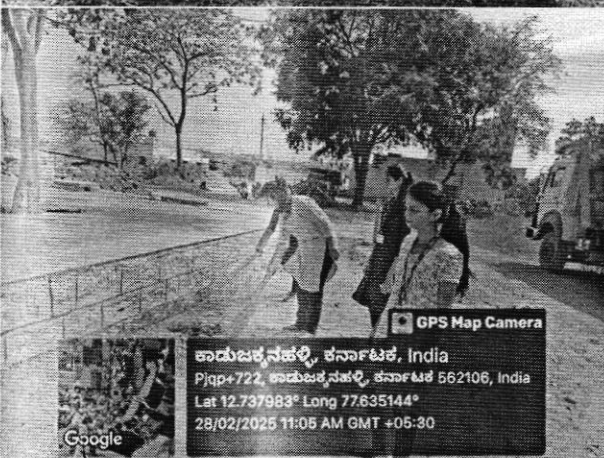

Yours Sincerely
