

Report IEEEEXTREME 19.0 Programming Competition

IEEEExtreme is a global challenge in which teams of IEEE Student members – advised and proctored by an IEEE member, and often supported by an IEEE Student Branch – compete in a 24-hour time span against each other to solve a set of programming problems.

- Great way to **test and sharpen your coding & problem-solving skills** under pressure and in a team setting.
- Useful addition to your CV/resume: participating in a global competition run by IEEE gives credibility and shows initiative.
- Networking & peer learning: you'll be competing alongside students worldwide, which can expose you to different approaches and cultures in coding.
- Prizes & recognition: For IEEEExtreme 19.0, the prize structure outlined includes:
 - 1st place: trip to an IEEE conference of your choice (return airfare + registration + 3-night hotel)
 - 2nd place: each team member gets US\$ 400 cash.
 - 3rd place: US\$ 300 each.
 - 4th-10th place: special merchandise bundle.
 - 11th-20th place and top 3 in each region: merchandise bundle.
- Certificates: Any team that scores ≥ 1 point will be able to download a certificate of participation.

Eligibility, Team & Format Basics

- Teams must consist of **1 to 3 members** who are **IEEE Student or Graduate Student members**. At most 2 of the members can be Graduate Students.
- You must locate a **Proctor** (an IEEE member of higher grade than Student/Graduate Student) for your team. That proctor may monitor remotely or in person.
- The competition starts at **00:00 UTC** on the competition date (for that region) and runs 24 hours.

- Teams are expected to solve coding tasks without external assistance (no help from others, including the proctor beyond monitoring/logistics).

Key Details for IEEEExtreme 19.0

- Date: 25 October 2025.
- Registration deadline: Some sources show October 14, 2025.
- Virtual attendance is allowed (teams can participate from home or campus) — the event is location-agnostic provided you have a good internet connection and follow the rules.

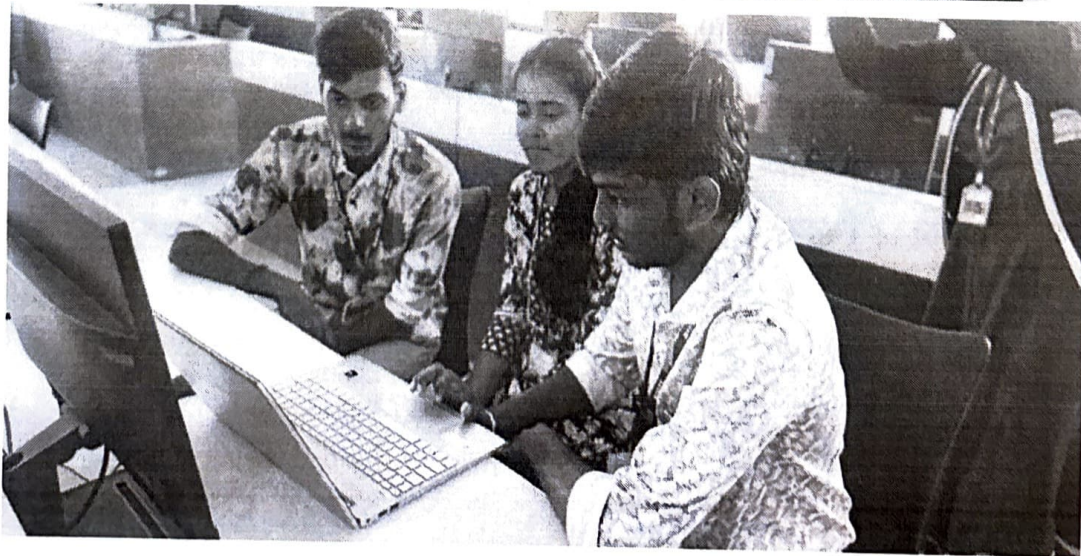

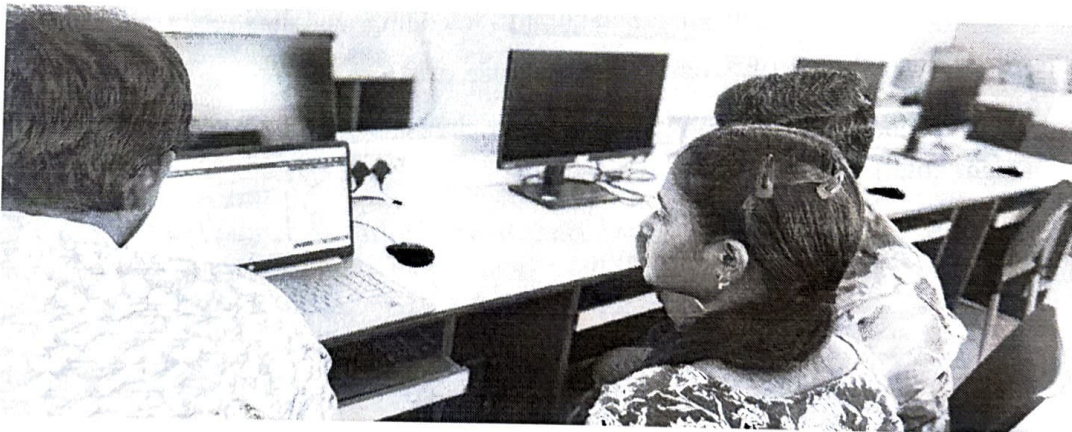

List of teams participated from Sri Sairam College of Engineering

Team 1- Ponmudi E, Sathiya, and Srinivas

Team 2- Naveen, Santhosh and Tamilselvi

Team 3- Vikas N and Suman S

Team 4- Rakshitha V and B Varsha

- Report to the IEEEExtreme committee that the team(s) completed the contest according to the rules.
- **Provide feedback:**
 - Optionally report any incidents or issues encountered during the event.

🕒 Time Commitment

- The Proctor must be **available for the entire 24-hour duration** of the contest.
- Can supervise **multiple teams**, provided they are in the same location.

Ethics and Conduct

- Proctors **must not assist** with problem-solving or debugging.
- Maintain **impartiality and confidentiality** of all problems and submissions.
- Report any suspected cheating or rule violations to IEEE immediately.

Summary

In short: **Yes**, registering for IEEEExtreme 19.0 is a strong opportunity — provided you can quickly assemble a team, pick a proctor, register and prepare. It's a global event with prestige, challenge and learning built-in.
