Workshop Report

Title: Intelligence by Design: Developing AI Models

Date: 11th October, 2025

Venue: CSE Laboratory

Organized by: Department of Computer Science and Engineering

In association with: IEEE Computer Society

Resource Person: Dr. M. Senbagavalli, Associate Professor, Alliance School of Advanced Computing, Bengaluru

The Department of Computer Science and Engineering organized a one-day workshop on “Intelligence by Design: Developing AI Models” on 11th October, 2025. The session was conducted by Dr. M. Senbagavalli, Associate Professor, Alliance School of Advanced Computing, and Bengaluru.

The primary objective of the workshop was to provide students and faculty members with a comprehensive understanding of Artificial Intelligence (AI) and AI model development. The sessions were highly interactive, featuring practical insights, demonstrations, and real-time case studies that kept the participants actively engaged throughout.

A total of 132 students and faculty members participated in the workshop and gained valuable hands-on exposure to various AI concepts and modelling techniques.

The event concluded with a Q&A and demo session conducted as a student activity, where participants clarified their queries and explored innovative applications of AI. Feedback collected from the participants indicated a high level of satisfaction and enthusiasm, with many expressing interest in attending similar workshops in the future.
