24.02.2026

Submitted,

Sub: Report on Orientation Program on EV Reg.,

The Department of Artificial Intelligence and Machine Learning in association with the AI Club, organized an **"Orientation Program on Electric Vehicle"** on 18.02.2026 was organized for the 3rd year students of Mechanical Engineering, EEE and ECE in the Seminar Hall. The session commenced with a welcome address delivered by **Mr. Sathya**, who warmly greeted the gathering and highlighted the growing importance of electric vehicles in the present global scenario. He emphasized the need for engineering students to understand emerging technologies in sustainable transportation.

The Chief Guest for the program was **Mayank Arora**, who delivered an insightful and informative session on Electric Vehicles (EVs). He explained the fundamentals of EV technology, including battery systems, motor controllers, charging infrastructure, and future trends in the EV industry. He also discussed career opportunities and the scope of innovation in the electric mobility sector.

The session was highly interactive, with students actively participating and clarifying their doubts regarding EV design, implementation, and market growth. The program provided valuable exposure to students and enhanced their understanding of sustainable and green energy solutions.

The orientation program concluded with a vote of thanks, expressing gratitude to the Chief Guest and organizers for making the event successful.
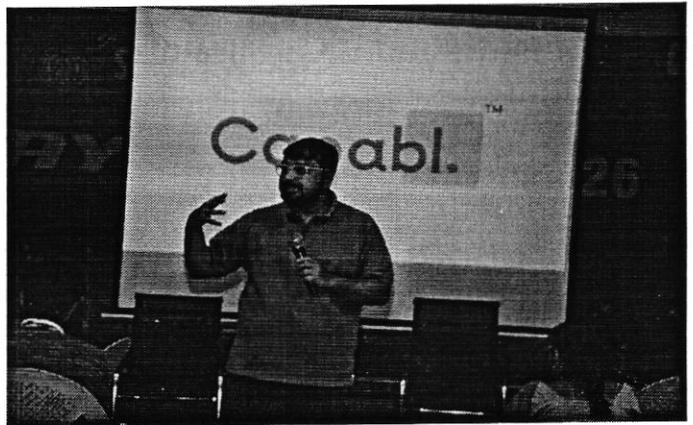

Thanking You

Yours Sincerely

1.
