THE DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Date :11/09/2026

Submitted,

Sub: - Report on a webinar titled "Exploring CloudSim: Cloud Resource Management and Optimization"-reg.

The Department of Computer Science and Engineering, Sri Sairam College of Engineering, conducted a webinar on "Exploring CloudSim: Cloud Resource Management and Optimization" with the objective of providing students with practical insights into cloud computing simulation, cloud resource management, and optimization techniques. The webinar was conducted in online mode on 10th September 2026 from 11:00 a.m. to 1:00 p.m. The session was attended by Final year CSE students in cloud computing and related technologies.

The resource person for the webinar was Dr. Vinothiya Lekshmi, Professor, Sri Venkateswara College of Engineering, Chennai. She shared valuable insights into CloudSim, its applications in cloud computing research, resource allocation, scheduling, and optimization. The session helped students understand how simulation tools can be effectively used to model and evaluate cloud computing environments. The welcome address was delivered by Dr. Smitha J. A., Head of the Department, CSE, who warmly welcomed the resource person, and students and set the context for the webinar. The profile of the resource person was introduced by Dr. C. Valarmathi. The session was followed by an interactive learning experience, where students gained a better understanding of cloud resource management and optimization using CloudSim. The vote of thanks was proposed by Prof. Suguna A, expressing gratitude to the resource person, management, faculty members, organizers, and students for their valuable support and participation. The webinar successfully provided students with exposure to CloudSim and its role in cloud resource management and optimization, thereby enhancing their technical knowledge and interest in cloud computing research and applications.

Yours Sincerely,
