PRIYANKA CSE
Netcracker

I would like to extend my gratitude towards the Training and Placement Cell of Sairam for providing us a platform to kick starts our careers. When I joined Engineering it mattered what I would do once I Graduated. As years passed, I became more anxious! Eventually, they helped us understand the scenario and then went on to inspire us and train us over various aspects.

We were able to improve our soft skills and technical skills with a range of training programs and regular assessments which also helped us to understand our strengths and overcome our weaknesses. My involvement in our Sri Leo Muthu Innovation center activities gave me lot of confidence in handling technologies that are beyond our syllabus.

Our college Placement Cell is giving its best to every students in their career pursuit. Special thanks to our Placement Officer and our department Placement coordinators who supported us end to end in our success story.

I believe no where we could find this kind of support & care. Staff used to stay with us beyond working hours and enlightened us on various interview skills, everyday. Also they were very warm and motivating at times of failure. Thank you so much for the immense support

The training and placement cell of Sri Sairam College of Engineering provides a promising platform for all students to learn about elements associated with placement drives, from the scratch. Each and every person associated with the placement cell have worked in an extensive scale to provide the students an overall experience of how a recruitment drive actually happens.

All these gave each and every student the confidence that was required to crack an interview. All of us are immensely thankful to the placement cell, principal and the management for the motivation & support they rendered throughout this process.

The Placement Cell has held our hand and guide us like a parent through the placements. They did not let us feel the heat of the bad job market. The experience was more like:

"They inspire you, they entertain you and you end up learning a ton even when you don't know it."

They make the experience as a cake walk. And like the icing on the cake, our very caring and inspiring Placement Officer worked very hard for all of us to get place in good companies.

Hats off.
