Report on Session: "Global Goals – Plan Your Global Future"

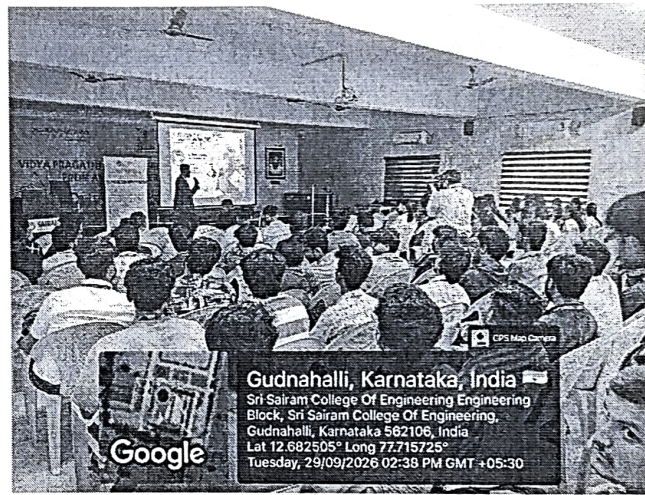

The Higher Education Cell (HEC) in association with Foreign language club, Sri Sairam College of Engineering, Anekal, Bengaluru, organized a session titled "Global Goals – Plan Your Global Future" on 29 September 2026 at 2:00 PM onwards in the Seminar Hall. The session was organized specifically for 4th-year students across all streams to create awareness about global higher education opportunities and international career pathways.

The session was conducted by Mr. Varun Reddy, Director, Haneeva Overseas Education. The welcome address was delivered by Dr. Suvodip Mukherjee, HEC Coordinator, who welcomed the speaker and students and highlighted the importance of exploring higher education opportunities beyond India.

The session was attended by 150+ students from various streams. It provided students with an overview of higher education opportunities in the USA, Europe, Asia, Japan, and South Korea, enabling them to understand the different international destinations available for pursuing higher studies.

A significant part of the session focused on scholarship opportunities, with students being informed about various scholarships and financial assistance options that can help reduce the cost of overseas education. The speaker also discussed important international entrance and language proficiency examinations, including GRE, IELTS, and TOEFL, along with their relevance to overseas university admissions.

The session helped students gain awareness about international universities, admission pathways, scholarship opportunities, eligibility requirements, and standardized examinations. It encouraged students to begin early planning and make informed decisions regarding their higher education and career goals.
